INTRODUCTION

The study of the English language has spread all over the world, and high school and college students everywhere have come to realize that language mastery depends on the possession of a comprehensive vocabulary. This is just what *1100 Words You Need to Know* has been offering through the five earlier editions and continuing on this sixth one.

We are proud that Amazon.com has rated this book as the number one best seller in its category. In addition to the various exercises that help readers learn challenging vocabulary, we have now added a section called “The Lighter Touch 100,” which shows that vocabulary can be taught with a sense of humor. By investing a mere 15 minutes with this new book, you will soon see a dramatic improvement in your vocabulary.

Reading Wisely

The youngster who reads voraciously, though indiscriminately, does not necessarily gain in wisdom over the teenager who is more selective in his reading choices. A young man who has read the life story of every eminent athlete of the twentieth century, or a coed who has steeped herself in every social-protest novel she can get her hands on, may very well be learning all there is to know in a very limited area. But books are replete with so many wonders that it is often discouraging to see bright young people limit their own experiences.

Sample Sentences On the basis of the above paragraph, try to use your new words in the following sentences. Occasionally it may be necessary to change the ending of a word; e.g., indiscriminate to indiscriminately.

1. The football game was _______________ with excitement and great plays.
2. The _______________ author received the Nobel Prize for literature.
3. My cousin is so _______________ in schoolwork that his friends call him a bookworm.
4. After skiing, I find that I have a _______________ appetite.
5. Modern warfare often results in the _______________ killing of combatants and innocent civilians alike.

Definitions Now that you have seen and used the new words in sentences, and have the definitions “on the tip of your tongue,” try to pair the words with their meanings.
6. voracious  
7. indiscriminate  
8. eminent  
9. steeped  
10. replete

a. of high reputation, outstanding  
b. completely filled or supplied with  
c. choosing at random without careful selection  
d. desiring or consuming great quantities  
e. soaked, drenched, saturated

**Today’s Idiom**

*to eat humble pie*—to admit your error and apologize

After his candidate had lost the election, the boastful campaign manager had *to eat humble pie*. 
WEEK 1 ♦ DAY 2

SOLVING THE SERVANT PROBLEM

The worlds of science-fiction abound with wonders. Yet modern technology progresses so rapidly that what may be today’s wild dream may be next year’s kitchen appliance. A British scientist has prognosticated that within ten years every suburban matron will have her own robot servant. One task this domesticated automaton will not have to contend with will be scouring the oven because even today the newest ranges can be “programmed” to reduce their own baked-on grime to easily disposed of ashes.

Sample Sentences  Now that you’ve seen the words used in context, and—hopefully—have an idea of their meanings, try to use them in the following sentences. Remember that a word-ending may have to be changed.

1. The mayor refused to ______________ as to his margin of victory in the election.
2. The time is approaching when human workers may be replaced by ______________.
3. A clever salesman will always ask a ______________ if her mother is at home.
4. The western plains used to ______________ with bison before those animals were slaughtered by settlers.
5. Man may be freed from backbreaking labor by the products of scientific ______________.

Definitions  Test yourself now by matching the new words with the definitions.
If you are not sure of yourself, cover the top half of this page before you begin.

6. abound
   a. an older married woman
7. technology
   b. branch of knowledge dealing with engineering, applied science, etc.
8. prognosticate
   c. a robot; a mechanical “person”
9. automaton
   d. to exist in great numbers
10. matron
    e. to predict or foretell a future event

**TODAY’S IDIOM**

*a pig in a poke*—an item you purchase without having seen; a disappointment

The mail order bicycle that my nephew bought turned out to be *a pig in a poke*, and he is now trying to get his money back.
WEEK 1 ♦ DAY 3

IT’S A MAN’S WORLD

How paradoxical that the world’s greatest chefs have all been men! Cooking would clearly seem to be a field that lies exclusively within women’s realm, yet the annals of cookery are replete* with masculine names: Brillat Savarin, Ritz, Diat, Larousse. To compound the puzzle, there has rarely been a tinge of rumor or scandal casting doubts on the masculinity of these heroes of cuisine.

(*replete—if you’ve forgotten the meaning, click here)

Sample Sentences Try your hand now at using your new words by writing them in their correct form (change endings if necessary) in these sentences:

1. His gloom was now __________________ by the failing mark on his geometry test.
2. The __________________ of sports are replete* with the names of great black athletes.
3. One of the great __________________ of American life is that though minority groups have suffered injustices, nowhere in the world have so many varied groups lived together so harmoniously.
4. A _______________ of garlic is all that’s necessary in most recipes.
5. The cruel king would not allow the prince to enter his _______________ , restricting him to the forest, which abounded* with wild animals.

(*abounded—studied previously, click here)

Definitions If you are having trouble in picking the right definitions, it may be best not to do them in the order given, but to do the ones you are surest of first.
6. paradox
   a. a trace, smattering, or slight degree
   b. a statement that at first seems to be absurd or self-contradictory but which may in fact turn out to be true

7. realm
   c. to increase or add to

8. annals
   d. historical records

9. compound (v.)

10. tinge (n.)
    e. special field of something or someone; kingdom

**Today’s Idiom**

*a flash in the pan*—promising at the start but then disappointing

The rookie hit many home runs in spring training, but once the season began he proved to be *a flash in the pan.*
**WEEK 1  •  DAY 4**

**HOW NOT TO GET YOUR WAY**

It is difficult to change someone’s opinion by badgering him. The child who begs his mother to “get off his back” when she implores him for some assistance with the household drudgery, may very well plead interminably for some special privilege when he wants something for himself. How paradoxical* that neither is able to perceive that no one likes being nagged.

(*paradoxical—studied previously, [click here])

**Sample Sentences** Getting the hang of it? Now go on to use the five new words in the following sentences—remember, past tenses may be required.

1. She does her homework on Fridays to save herself from the ____________ of having to do it during the weekend.
2. The teacher continually ____________ the pupil for the missing assignments.
3. The eminent scientist ____________ difficulties in putting the invention into practice.
4. The sick child’s mother ____________ the doctor to come immediately.
5. I listened to the boring lecture for what seemed an ____________ fifty minutes.

**Definitions** Pick the letter of the definition that matches your new word.

6. badger (v.)  
   a. unpleasant, dull, or hard work
7. implore  
8. drudgery  
9. interminable  
10. perceive  

b. unending  
c. to plead urgently for aid or mercy  
d. to understand, know, become aware of  
e. to pester, nag, annoy persistently

**TODAY’S IDIOM**

*to pour oil on troubled waters—to make peace, to calm someone down*

When I tried to *pour oil on troubled waters*, both the angry husband and his wife stopped their quarrel and began to attack me.

Reggie the Con Man

In the ①________ of crime, there are few scoundrels who could match the exploits of Reggie Hayes, who also used the names of Reginald Haven, Ricardo Hermosa, Father Harris, and dozens of other aliases. Reggie’s police record, principally in Chicago and Baltimore, is ②________ with scams that he perpetrated upon gullible people. Generally, his favorite target was a ③________ who should have known better.

Dressed as a priest (“Father Harris”), he was most convincing, however. His method of operation was to “find” a wallet stuffed with hundred dollar bills outside a supermarket and then ④________ an unsuspecting woman to share his good fortune, since there was no identification in the wallet. But first, to establish her credibility, his victim had to put up a sum of money as a testimonial to her good faith. Mrs. Emma Schultz, age 72, tearfully told the police that she had withdrawn $14,000 from her bank and placed it in a shopping bag supplied by the helpful priest. He told her to hold onto the bag while he went next door to a lawyer’s office to make the sharing of their good fortune legal.

After a seemingly ⑤________ wait, Mrs. Schultz discovered to her chagrin that the heartless thief had skipped out the back way, leaving her “holding the...
bag”—a switched bag containing shredded newspaper—while he made his getaway with her life savings.
TO THE POINT
Calvin Coolidge, our thirtieth president, was named “Silent Cal” by reporters because of his laconic speech. One Sunday, after Mr. Coolidge had listened to an interminable* sermon, a throng of newsmen gathered around him. An intrepid reporter accosted the Chief Executive: “Mr. President, we know that the sermon was on the topic of sin. What did the minister say?” “He was against it,” the reticent Coolidge replied.

The Best Laid Plans

Gloria Rogers overslept and then had to sprint to catch the same Greyhound Bus that she boarded on the last Thursday of every month. After a three-hour uneventful ride, she finally arrived at the bus terminal where a courtesy van was ready to transport bus passengers to Visitors Day at the State Penitentiary.

Although Gloria tried to act casual, she was more than a little nervous. Her boyfriend, Art, a convicted ☐────, had managed to gain admittance to the prison’s hospital on the ☐──── of having a gall bladder attack. Under her own slacks and bulky sweater, Gloria was wearing a set of clothes that she removed in the hospital bathroom and passed on to Art. He planned to use them after making his escape in the back of the prison ambulance that was parked outside his ward.

Art had spelled out his escape plan during Gloria’s last visit, spending an hour trying to ☐──── her into being his accomplice. All that she had to do was appear to have a seizure. Then she would ☐──── a story about her epilepsy while Art, with the smuggled clothes concealed under his prison bathrobe, would slip out of the ward during the excitement. Unfortunately for the schemers, a ☐──── hospital guard spotted Art climbing into the rear of the ambulance and quickly foiled the escape attempt. The result was that Art had
three years added to his sentence and Gloria was imprisoned for her role in the misadventure.

My cousin refers to himself as a “sanitary engineer”—a *euphemism* for garbage collector. There are any number of people who try to find more respectable or glamorous titles for the *mundane* jobs they hold. It may seem *incongruous* to call an undertaker a “*condolence* counselor,” or to refer to a taxi driver as a “transportation expediter,” but some prefer those titles. As a matter of fact, our butcher has *stipulated* that from now on he wants to be known as a “meat coordinator.” He became irate* when I inadvertently* called him “Butch.”

REVIEW

The word “review” means “to view again” and that is the purpose of our weekly review. You will have noticed, of course, that many of the words that appear as new words are repeated in subsequent lessons. Sometimes they are in the paragraph, sometimes in the sample sentences, and occasionally in the idioms or directions. This continued emphasis on “viewing again” will help you to become familiar with the vocabulary.

In the following quiz, match the best possible definition with the word you have studied. *Reminder: Record answers on a sheet of paper.

Desert Storm Decision

In the 1991 Persian Gulf War, where the United Nations forces, led by Americans, ousted the invading Iraqi army from Kuwait’s soil, the 3rd Day of combat took place in short order after the Allies were able to control of the skies from the 1st Day Saddam Hussein’s air force.

General H. Norman Schwarzkopf, the U.S. field commander, tended to when asked by the media why he hadn’t pursued the enemy all the way to Baghdad, saying:

“It would have been foolhardy for us to try to occupy that capital city and pile up American casualties from sniper attacks by Iraq’s guerillas. That may be hard for you Monday morning quarterbacks to understand but I thoroughly agreed with the president who was convinced that such an action would have sent a bad message to the Arab world and would have splintered the Allied partnership.”

Schwarzkopf reiterated that it was his mission to hurl back the invaders with a minimum of bloodshed but not, he added in a tone, “to splatter Saddam over the desert sands. That dictator’s days are numbered,” the general concluded, “but I expect his end is likely to come at the hands of his own people.”
MULLINS A K.O. VICTIM

When the bell sounded, K.O. Mullins responded with *alacrity*. He sprang from his stool and charged across the ring, showing *disdain* for the champion’s strength. Although this *belligerent* attitude impressed the referee, it failed to *intimidate* the champ. That intrepid* battler laid the hapless* Mullins low with an adroit* feint and an uppercut.

MULLINS THROWS DOWN THE GAUNTLET*

The pugnacious K.O. Mullins demanded a rematch. He took a full-page newspaper advertisement to promulgate his challenge. When the champ’s manager saw the brash announcement, he accosted* Mullins, who was surrounded by a throng* of newsmen. The manager openly scoffed at Mullins and belittled his fighting ability. Mullins then lost his temper and fearlessly punched the manager, knocking him off of his crutches.

WEEK 4 ♦ DAY 4

THE DECLINE OF MULLINS

Mullins sought solace in whiskey. Once a highly respected aspirant for the lightweight crown, he now found himself associating with the dregs of Skid Row.* He would work himself into an alcoholic frenzy in which he would trumpet scurrilous attacks on the champ, the old manager, and the judge. One avid* fight fan attributed Mullins’ absence from the ring to sickness, saying that he was “recovering from a bad case of—SCOTCH.”

Want to Run for Office?

In recent years, we have seen the phenomenon of incumbent politicians retiring in record numbers. When interviewed, many of them admitted that they had lost their taste for the job because of the abuse to which an ①_______ for office is subjected.

“My last campaign was a ②_______ affair in which my opponents did everything to ③_______ my record and air ④_______ charges about my private life,” said one congressman. “I don’t have to stand still for such treatment,” he added, “which was terribly embarrassing to me and my entire family.”

Citizen groups, appalled by the candidates’ mudslinging, have sought to do something about the situation. Committees have been formed in a number of states to study ways to elevate the tone of the process, reduce the emotionalism, and eliminate the ⑤_______ of name calling that is generated as election day draws near.

“Unless we clean up this mess,” said the chairman of an Illinois caucus, “we will lose the best and the brightest from the political arena. After all, who but a masochist wants to be a punching bag, the subject of daily vilification in the media, and a target for every malcontent in town?”
CHEATING
During my first weeks at the new school I observed that cheating was rampant. I had always considered it rather inane to cheat on a test because of my code of ethics, and because so much was at stake. Apparently the other students didn’t concur. In fact, even the presence of a proctor did not intimidate* them. Far from being a clandestine activity, the cheating was open and obvious.

Sample Sentences Use the new words in the following sentences.

STAR PLAYER IS CAUGHT

The cheating scandal came to a head when Art Krause, our football captain, made the egregious mistake of getting caught cheating on a midterm exam. If Art were suspended for his part in that sordid* affair, our chances for winning the city championship would go up in smoke.* The distraught coach asked the principal to overlook Art’s duplicity, but Mr. Dorsey replied in an acrimonious fashion that the players had been given “a plethora”* of athletic instruction but a paucity of moral guidance.”

OUR PYRRHIC VICTORY*

Mr. Dorsey summoned a representative group of teachers and student leaders to his office in order to elicit their reactions to the suspension of the football captain. He told them that cheating was a pernicious disease that could not be tolerated at our school. He loathed* having to discipline Art Krause so severely, but unless strict measures were taken, the student body would construe the incident as an open invitation to cheat with impunity. “We may lose a football game,” the principal said, “but we can salvage our self-respect.”

Driving While Drunk

Throughout literature we find recurring tales of forthright people who are outspoken in condemning illegal practices only to be brought low themselves when they, or members of their families, commit such acts. Since literature reflects life, we can expect to find similar instances in which a person’s ①______ are compromised, and he falls prey to the ②______ evil that he had publicly denounced.

Take the story of Barry Vernon (not his real name), an aggressive Ohio district attorney. Vernon could be counted upon to make ③______ remarks about anyone who was driving while intoxicated. On numerous speaking engagements, he railed against drunkenness and swore that any such ④______ who was found behind the wheel of a car would be prosecuted to the full extent of the law.

As fate would have it, Vernon’s own son smashed into several cars, injuring four people seriously, and then failed a sobriety test.

Following that ⑤______ violation of the law, Vernon resigned from office, saying that as a private citizen he would continue his crusade against those who drive under the influence of alcohol. Meanwhile, he wished to spend more time with his son to try to understand the young man’s behavior.
THE NEWSPAPER UMBRELLA

Our neighbor is an affluent inventor whose latest brainstorm, a feasible umbrella substitute, has been featured in many magazines. As simply as the eye can discern, it is a hard plastic strip, about the size of a ruler, which fits comfortably into a woman’s handbag or a man’s suit jacket. If a person is caught in a sudden rainstorm, he swings the plastic open in the shape of a cross. Attached to each arm is a clip-like device. Next, he takes the newspaper he is carrying and slides it under each of the four clips. Now, equipped with a rigid head covering he can sally forth to face the elements. To the consternation of the umbrella manufacturers, it has been enjoying a brisk sale, especially among commuters. If it continues to do well, it could have a pernicious* effect upon the umbrella industry.

My red-letter day came when I was chosen as senior class president.
HOLD THAT NOBEL PRIZE!

Speaking of inventions and discoveries, I just learned that an eminent* scientist in Ohio has developed a pill that contains all the nutritive value of three complete meals. In addition to providing us with the vitamins and minerals we need daily, this pill also gives a feeling of fullness. According to its sponsors, the pill will nourish and satisfy. I hate to disparage such a laudable achievement, but to me it seems like a most objectionable discovery. Rather than a scientific triumph, I’d be inclined to label it as an egregious* blunder, a scientific disaster, a laboratory fiasco. Is there anyone in his right mind who thinks that a pill can replace the pleasures of devouring hot corn bread, masticating on a thick steak, biting into crisp french fries, or attacking a chocolate sundae? I’m afraid that this is one pill I’ll have to eschew from chewing.

PERFECT PRODUCTS

I guess we’ll never be able to quell those persistent rumors about the invention of auto tires that will never wear out, stockings that cannot tear, and pens that won’t run dry. A voluble economist informed me that such products will never be marketed. “Can you imagine,” he asked, “a manufacturer cutting his own throat? Why would he sell you an item that you will never have to replace? No,” my confidant whispered, “it’s part of their scheme of planned obsolescence to sell you merchandise with a limited life span in order to keep you coming back for more.” I am dubious about the existence of those perfect products, but then I’m from Missouri.*

Trouble at Truman High

It was a quiet morning at Harry S Truman High School. “Too quiet,” Principal Edna Suarez remarked to her secretary. “It’s just when things are this serene that I start to get an uneasy feeling.”

Mrs. Suarez's sensitivity to life among 3,000 teenagers quickly proved to be accurate. The first evidence of trouble came with a phone call from the teacher in charge of the cafeteria who needed help to ①______ a disturbance. When Mrs. Suarez arrived on the scene, much to her ②_______, students were pounding on their tables, throwing food on the lunchroom floor, and making a complete ③______ of school regulations. It took the principal only a moment to ④______ who the two ringleaders were and to summon them to her office.

Vincent, 16, and Elena, 15, admitted to having stirred up the protest. They gave as their reasons the poor quality of food served and the dirty environment. “It’s like a pigsty down there,” Elena declared, “and the food is fit only for animals!”

What they had done, Mrs. Suarez told them, was inexcusable, and she ticked off a list of reasons that made their conduct dangerous and subject to school discipline. “What you were trying to do,” Mrs. Suarez explained, “might be
considered by some but you could have come to me, alone or with a committee, to register your complaints. I would have investigated and, if there was merit to your charges, would have taken the necessary action. Now I’ll have to ask you to bring your parents to see me on Monday and to stay home until then.”

Vincent and Elena seemed to be chastened by Mrs. Suarez’s lecture. However, on leaving her office, Elena told an assistant principal that in a similar incident on a television show she learned that direct, dramatic action usually gets quicker results than lengthy debate. He advised her to bring that question up in her social studies class when she returned from suspension.
**MUCH ADO ABOUT A HAIRCUT**

Perhaps you read about our school in the newspapers? We were one of the first to have a showdown on the topic of long hair for boys. Two honor students, Ron Harris and Len Chester, were sent to the principal by their French teacher, an implacable foe of nonconformists, who went into a paroxysm of anger when she spied the boys in the hall. At first it seemed like a simple case. The school would reprimand* the boys for their reprehensible appearance and order them to cut their hair or be suspended. But the boys’ parents decided that the school had overstepped its jurisdiction; they took their case to the newspapers. What had started as a local skirmish now began to take on the appearance of a full-scale war.

cause célèbre—a famous law case or controversy

It was a minor dispute, but the ambitious lawyer sought to turn it into a cause célèbre.
THE TEMPEST SPILLS OUT OF THE TEAPOT

Once the newspapers got the story, the case of the longhairs became a cause célèbre.* Ron and Len were interviewed, seen on TV, and regarded by their fellow students as heroes. “These are not delinquents or hood,” one reporter wrote, “but clean-cut American boys who are being harassed by a monolithic school system.” A caustic* editorial referred to the school’s decision as arbitrary and inane.* A false story even circulated about the boys being rock-’n-roll performers whose indigent families needed their salaries. Finally, the Civil Liberties Union jumped into the fray with a court order stipulating* that the principal be required to show cause why the boys should not be allowed to return to class.

HAIRCUT DILEMMA

The school authorities were stymied. Public opinion had been marshaled against them. No longer was it a simple case of disciplining two wayward lads. Suddenly it had taken on the appearance of a nightmare in which the principal was either hanged in effigy or pictured in cartoons making a villainous swipe at the two innocent Samsons. But the officials could not allow Ron and Len to flout their authority with impunity.* Members of the school board concurred* with the principal’s action but they were cognizant of the popular support for the boys. Clearly a compromise was called for to resolve the turbulent situation.

The Reading of the Will

One full week after the funeral, the immediate family of millionaire Charles Hudson was gathered in a law office to hear the reading of the deceased’s will. Mr. Hudson’s wife, thirty years his junior, was prepared for a bitter ①______ with his former wife and her son. The lawyer, Don Rollins, anticipated a ②______ session because he was the only one who was ③______ of the contents of the revised will that Hudson had ordered drawn up six months prior to his death.

The current Mrs. Hudson, attired in her smart widow’s weeds, expected that she would receive the lion’s share of the estate. The former Mrs. Hudson felt that she was entitled to most of the estate since she was practically ④______ at the present time, despite her substantial alimony payments.

Lawyer Rollins cleared his throat and began to read:

“To my present spouse I leave my town house where she can continue to store the jewels, shoes, dresses, and furs she accumulated in two years of shopping and marriage.

“To my son, who has put off finding a career until my estate would enrich him, I leave the sum of ten dollars for cab fare to the unemployment office.
“To my former wife whose behavior I tolerated for three decades, I leave my beach house where she can continue to work on her tan, something that she prized above our happiness.

“To the Society For the Prevention of Cruelty to Animals I leave the remainder of my entire estate, knowing they will put it to better use than anyone in this room.”

The lawyer was wrong. No outcries. Silence, supreme silence, reigned among the shocked audience.

**WEEK 8 † DAY 1**

**ENTER DR. THOMAS A. DOOLEY**

In 1956, *Look Magazine* named Thomas Dooley as one of the year’s ten most outstanding men. Just under thirty years of age at the time, Dr. Dooley had already distinguished himself by caring for a half-million sick and emaciated Vietnamese refugees. When fighting broke out in the divided country of Viet Nam, the northern Communist Viet Minh forces surged southward, scattering thousands of refugees before them. At the time, Dr. Dooley was a lieutenant, assigned to a tranquil naval hospital in Yokosuka, Japan. Forthwith* he volunteered for duty on a navy ship that had been chosen to transport the refugees to sanctuary in Saigon. The curtain was beginning to ascend on Dooley’s real career.

Marcia said that she didn’t want to be on the Principal’s Honor Roll anyway, but we knew that it was just sour grapes on her part.
DOOLEY’S MISSION

Aboard the refugee ship, Dooley’s destiny took shape. He became painfully cognizant* of the malnutrition, disease, ignorance, and fear that afflicted the natives. In addition, he discerned* how active the Communists had been in spreading their anti-American propaganda. Tom Dooley pitched in to build shelters in Haiphong, and to comfort the poor Vietnamese there before that besieged city fell to the powerful Viet Minh forces. He was seemingly unconcerned by the many privations he had to endure. For his services, Dooley received the U.S. Navy’s Legion of Merit. He told the story of this exciting experience in Deliver Us from Evil, a best seller that alerted America to the plight of the Vietnamese as well as to the sinister menace of communism.

STYMIED* BY PERSONAL SICKNESS

After an extensive lecture tour in 1956, Dr. Dooley returned to Laos to set up a mobile medical unit. Because the Geneva Agreement barred the entrance of military personnel to the country, he resigned from the Navy and went to work as a civilian. That story is told in The Edge of Tomorrow. Next year, despite a growing illness, the ubiquitous Dooley turned up in the remote village of Muong Sing, attempting to thwart his traditional enemies—disease, dirt, ignorance, starvation—and hoping to quell* the spread of communism. But his trained medical eye soon told him that the pain in his chest and back was a harbinger of a malignant cancer.

“PROMISES TO KEEP”

From August, 1959 until his death in January, 1961, Dooley suffered almost continuous, excruciating pain. His normal weight of 180 was cut in half, and even the pain-killing drugs could no longer bring relief. Knowing that he did not have long to live, Dr. Dooley worked without respite on behalf of MEDICO, the organization he had founded to bring medical aid and hope to the world’s sick and needy. The lines of Robert Frost kept reverberating in his mind during those fretful days: “The woods are lovely, dark and deep/ But I have promises to keep/ And miles to go before I sleep.” When he finally succumbed, millions throughout the world were stunned and grief-stricken by the tragedy.

Throughout history, following volcanic eruptions, hurricanes, tidal waves, and other calamities that periodically ⑤________ mankind, religious leaders have used such occurrences to bring the people back to their faith.

“Unless we return to Allah,” said a priest, “we can expect more divine punishment.”
Since many Egyptians had expressed unhappiness about their government prior to the earthquake, there was a good chance for Muslim fundamentalists to seize the opportunity to win new converts by showing that the answer to recovery was not through man’s efforts but through God’s.
**JUST SPELL THE NAME CORRECTLY**

P. T. Barnum, the great circus *impresario*, was once accosted* by a woman who showed him a scurrilous* manuscript about himself, and said that unless he paid her, she would have the book printed. Barnum rejected the *extortion* attempt. “Say what you please,” he replied, “but make sure that you mention me in some way. Then come to me and I will estimate the value of your services as a publicity agent.” Barnum obviously felt that *adverse* criticism was an *asset* for a public figure. A man who seeks the limelight should not care what is written about him but should be concerned only when they stop writing about him. Barnum’s philosophy suggests that we might do well to review the plethora* of publicity given to rabble-rousers and *bigots*.

WEEK 9 ● DAY 2

BIGOTS* GET PUBLICITY

Today, the blatant bigot, the leader of a lunatic fringe, and the hate-monger, each with his tiny entourage, find it relatively easy to attract publicity. Newspapers give space to the virulent activities of those agitators on the grounds that they are newsworthy. TV producers and radio executives, seeking for sensationalism, often extend a welcome to such controversial characters. “Yes,” said the host of one such program, “we invite bigots, but it is only for the purpose of making them look ridiculous by displaying their inane* policies to the public.” Some civic-minded organizations have answered, however, that the hosts are not always equipped to demolish those guests, and even if they were, the audience would still be exposed to the venom they spew forth.

Sample Sentences Use the new words in the following sentences.

1. The visiting dictator’s ubiquitous* _____________ of bodyguards disturbed our tranquil* city.
2. Europe’s population was afflicted* by a _____________ plague known as the Black Death.

**Today’s Idiom**

*to keep a stiff upper lip*—to be courageous in the face of trouble

It was admirable to see how the British managed *to keep a stiff upper lip* in spite of the German bombing.
COPING WITH BIGOTS*

Suppose a bigot wished to organize a meeting in your neighborhood. Since we cherish freedom of speech, we are loath to deny the request, even if he preaches hatred. As a result, hate-mongers are given the opportunity to rent halls, conduct meetings, publish abusive literature, and solicit contributions. What can be done about them? One astute observer, Prof. S. Andhil Fineberg, advocates the “quarantine method.” His plan is to give such groups no publicity and to ignore them completely. Without the warmth of the spotlight, he feels that the bigot will freeze and become ineffectual. Debating with such warped minds is not feasible* and only tends to exacerbate* the situation.

Sample Sentences Use the new words in the following sentences.

1. Since we felt that the ruling was arbitrary,* we were ________________ to obey it.
2. Daily the volunteers went out to ________________ funds for the indigent* families.
3. My neighbor was ________________ enough to discern* the adverse* features of the mortgage.

WEEK 9 ♦ DAY 4

MORE THAN SILENCE

The quarantine method for handling bigots implies more than giving them the silent treatment. Prof. Fineberg urges community-relations organizations to scrutinize the nefarious activities of hate-mongers and to be prepared to furnish information about them to amicable inquirers. When a rabble-rouser is coming, those organizations should privately expose him to opinion-molders. In addition, constructive efforts should be taken to induce people to involve themselves in projects for improving intergroup relations. Bigger than the vexatious immediate problem is the need to find out the cause for such bigotry and to counteract this sinister* malady that afflicts* a segment of our society.

This Century’s Deadliest Disease

When the American public started to hear about the AIDS virus in the 1980s, there was a measure of concern but no real alarm. After all, some said, it was a problem solely for a small group of intravenous drug users who shared dirty needles, and for the homosexual community.

But as the numbers of afflicted people grew during the 1980s and 1990s, we began to ⑥_______ the tragic news stories more closely. The deaths of young people like Ryan White and Kimberly Bergalis, not members of the at-risk groups referred to above, convinced us that what was at first regarded merely as a ⑦_______ illness was actually a ⑧_______ threat to the general community.

In the mid-1980s, ⑨_______ medical researchers were optimistic that a vaccine for AIDS would be found in short order. Those predictions proved to be inaccurate. In October 1992, former Surgeon-General C. Everett Koop said that he doubted we would ever find a cure for the disease. With over 200,000 Americans already having succumbed to the ⑩_______ killer, and another 300,000 who were HIV-positive and could contract a full-blown form of AIDS, Koop’s statement sent chills throughout the country.

A prominent AIDS expert, however, took issue with Koop. “The fight will be
difficult,” said Dr. Harley Smith, “but we will find an answer very shortly.” Now, in the twenty-first century, the answer is apparently at hand.
WEEK 10 ♦ DAY 1

JERRY HART’S SIXTH SENSE
An uneasy feeling had made Jerry Hart miserable all day long. It was difficult to explain, but the similar sensations in the past had been accurate—trouble was on the way. Just as some people can predict the onset of inclement weather because of an aching in their bones, so could Jerry detect incipient* disaster. He sat at his desk, trying to peruse a company report but his efforts were ineffectual.* The gnawing at his insides, the tinge* of uneasiness, the premonition of calamity that besieged* him would not desist. When the phone rang, he recoiled with fear—it was his wife and she was hysterical. Their son had been bitten by a mad dog!

CRISIS!

As soon as Jerry Hart could get the pertinent facts from his wife, he dashed out of the office on his way home. He jostled* people in the hallway, implored* the elevator operator to hurry, and with flagrant* disregard for an elderly gentleman jumped into the cab he had hailed. The twenty-minute taxi ride seemed interminable* and all the while horrible thoughts occurred to Jerry. Visions of an ugly mastiff with foaming jaws obsessed him. A crowd of people had gathered in front of his house so that Jerry had to force his way through them. Little Bobby was on his bed, surrounded by a doctor, a policeman, Jerry’s doleful wife, his two daughters, and a half-dozen wan neighbors.

A TIME FOR DECISION

The doctor explained the situation calmly, avoiding histrionics. First of all, they didn’t know whether the dog had rabies. Secondly, the elusive dog had frustrated all attempts to find him so far. Finally, the decision would have to be made whether Bobby was to undergo the painful vaccination administered daily for two weeks. Mrs. Hart said that a neighbor who had seen the dog claimed that it had been foaming at the mouth, barking, and growling constantly—all symptomatic of rabies. But the policeman interjected that there hadn’t been a case of a mad dog in the county in over twenty years; he repudiated* the neighbor’s report, advocating* that they do nothing for at least another day. Mr. and Mrs. Hart sat down to think about their next step.

THE PERTINENT* FACTS ABOUT RABIES

“Give me some of the rudimentary* information about the disease, Doc,” said Jerry, glancing toward the inert figure of his son. “Well, as you know, the malady* used to be called ‘hydrophobia’ (fear of water) because one of the symptoms is an inability to swallow liquids. Actually, it is caused by a live virus from the saliva of an infected animal. If saliva gets into a bite wound, the victim may get rabies. The virus travels along the nerves to the spine and brain. Once the salient characteristics appear (ten days to six months) then death is imminent.” “What are the symptoms?” asked Mrs. Hart. “Pain and numbness, difficulty in swallowing, headaches and nervousness. Also, muscle spasms and convulsions.” The squeamish neighbors who were engrossed in the doctor’s remarks gasped. “I think we should go ahead with the injections,” the distraught* Mrs. Hart said. “I’ve heard enough.”

The Potato that Strangled Idaho

People who are ①______ about the sight of blood or ②______ in horror from most forms of violence would do well to avoid some of the movies now being shown at their local cinemas. Producers have learned that films that scare the patrons out of their seats, ironically, put millions of fans into those seats, keeping them ③______ in the goose pimple-inducing spectacles that flash across the screen.

Of course, each movie carries with it a rating that indicates its suitability for certain age groups, either because of its subject matter, language, presentation, or level of violence. Pictures with a “G” rating are approved for all audiences, while, at the other end of the scale, those that are given an “X” rating are for adults only with no children allowed under any circumstance. Getting an “R” rating indicates that the movie is restricted (no one under 18 admitted without an adult) but some Hollywood moguls consider the “R” to be the magnet that insures box office success. And we can be sure that as long as shock films ring up a merry tune on the cash registers, producers will not ④______ from making them.

A director who specializes in making gory films involving monsters, vampires, and brutal serial killers boasted in a college lecture that his work was in good taste. One student who disagreed was provoked to ⑤______ that
in his opinion the diet of “shock-schlock” movies was in worse taste than those pictures that contained vulgar language and nudity. “At least they’re honest,” he declared.
THE SEARCH FOR THE DOG (CONTINUED)

Meanwhile, the Harts had notified the local radio stations to broadcast a poignant appeal for the dog’s owner to come forward. The station was inundated with phone calls but all leads were fruitless. From what Bobby had told them, a huge dog had leaped out from a red station wagon in the supermarket’s parking lot. After biting Bobby it vanished. The six-year-old was too concerned with the bites he had received to see where the dog disappeared to. The boy’s story was garbled, but he did remember that the animal was gray and had a collar. There was little tangible evidence to go on, but the police remained sanguine.

THE POLICE FIND THE DOG

Forty hours had elapsed before the police work and the publicity paid off. By meticulously checking the registrations of every red station wagon in the neighborhood and then cross-checking dog licenses, the police narrowed the search to four owners. After a few telephone calls, the apologetic owner was located and directed to bring her muzzled German shepherd to the Hart domicile. Bobby identified the dog, and the animal was taken to a veterinarian’s clinic to have the necessary tests performed. The lax owner, Mrs. McGraw, admitted that the dog had a sporadic mean streak, but she scoffed* at the idea of rabies. Jerry Hart noticed for the first time in two days that his uneasy feeling had departed.

to sow one’s wild oats— to lead a wild, carefree life

During his teen years, the millionaire avidly* sowed his wild oats.
ALL’S WELL THAT ENDS WELL

The Harts were greatly relieved to learn that the rash conjecture about the dog was not true. Because the German shepherd was not rabid, the necessity for the painful treatment was obviated. The police gave the dog’s owner a summons for allowing the animal to go unmuzzled. Little Bobby was treated to an ice cream sundae and a Walt Disney double feature. The neighbors searched for other lurid happenings, and Jerry Hart went back to his office.

“What kind of dog was that?” his secretary asked. “Oh, his bark was worse than his bite,” quipped Jerry.

Assuming Blunders

“I pledge allegiance to the flag of the United States of America and to the republic for Richard Sands.”

“Deliver us from evil. Lead us not into Penn Station.”

Teachers who train students to memorize and then do rote recitations sometimes find that the youngsters have a ①______ interpretation of the actual words. Eliza Berman, an educator who is ②______ about her own use of language, invited colleagues to send her examples of confusion in students’ writings. Little did she realize that they would quickly ③______ her letterbox with their pet mistakes. As a result, Ms. Berman was able to compile a fairly ④______ list of howlers that include the following:

“The inhabitants of ancient Egypt were called Mummies. They lived in the Sarah Dessert and traveled by Camelot.”

“Homer wrote The Oddity in which Penelope was the first hardship Ulysses endured on his journey.”

“Socrates died from an overdose of wedlock.”

“King Alfred conquered the Dames.”
“Indian squabs carried porpoises on their backs.”

“Under the Constitution, the people enjoy the right to keep bare arms.”

“In the Olympic Games, the Greeks ran, jumped, hurled the biscuits and threw the java.”

“Lincoln was America’s greatest Precedent.”

Ms. Berman is not too ☹ about eliminating such errors from pupils’ compositions and test papers. Her advice: enjoy!

AN ALL-ROUND MAN

The need for a decision came about when Monte was invited to join a prestigious summer stock company, starting in mid-June. As a mature “apprentice,” he would be required to take tickets, paint scenery, prepare placards, assist with lighting, costumes, and props, and carry an occasional spear in a walk-on role. Since the company would stage five major plays during the summer, as well as a half-dozen shows for children, there was a chance that Monte might actually get a part before too many weeks had elapsed.* In addition, he would be attending the drama classes that were an integral part of the summer theater. The remuneration would be nominal but at last Monte Ziltch would be fulfilling a life-long ambition.

WEEK 12 ♦ DAY 3

FROM LEDGERS TO SCRIPTS

During the first weeks of the summer, Monte Ziltch didn’t even have time to consider whether he had made an egregious* mistake. He was too engrossed* with his work, performing a thousand and one odd jobs around the theater. First there was the opening production of A Chorus Line, then two weeks of The Fantasticks, followed by a poignant* Diary of Anne Frank, which did excellent business. All through those weeks, Monte painted, carried, nailed, collected, ran, studied, and perspired. He had expunged all traces of debits and credits from his mind, burying himself in the more flamboyant world of the theater. Accounting became anathema to him as the schism between his present utopia and his former drudgery* widened.

IRONY FOR MERRYWEATHER

At last, Monte’s chance to perform came. He had played the *timorous* Lion in a *truncated* version of “The Wizard of Oz,” which the apprentices had staged. But now there was an open audition to cast the final show of the season. It was to be a *jaunty* original comedy, given a summer tryout prior to a Broadway opening. Monte, who by now had adopted the stage name of Monte Merryweather, read for the producers, hoping to get the part of the hero’s *fractious* landlord. Unfortunately, the competition was too rough—but the director assigned Monte to a less *ostentatious* part. And so for the first two weeks in September the stage-struck accountant had a two-minute, two-line part. What was his role? The hero’s accountant!

Regis, Oprah, Ellen, et al.

The television talk shows of our era, featuring such ① _______ public figures as Regis Philbin, Oprah Winfrey, and Ellen De Generes, attract millions of daytime viewers and constitute a powerful influence on the American scene. When the media can hold the attention of so sizable a chunk of couch potatoes, it pays to scrutinize it closely.

A student at Stanford University, doing her doctoral thesis on the unusual popularity of the afternoon talk shows, noted the fierce competition among those programs for guests who are off the beaten track. According to her:

“Almost every irregular, ② _______ life-style you can think of has already been featured on one of the shows and probably on all of them, when you add Montel Williams, Jerry Springer, and others of that ③ _______ who serve as network hosts. They have shown teenagers who marry people in their sixties, daughters and mothers who date the same man, men who have gone through a marriage ceremony with other men, women with prominent tattoos, and other people who are totally free of ④ _______ .”

“⑤ _______ for our guests is so small,” said a producer, “that these shows are inexpensive to put on. And say what you want about good taste, millions watch us every day, and as long as the ratings are that healthy, sponsors will pay good
money to be identified with us.”
A VISIT TO THE PRESIDENT

In the winter of 1941, Enrico Fermi and a number of other distinguished scientists importuned President Franklin Roosevelt for authorization to begin an all-out effort in atomic energy research. The scientists were alarmed by incontrovertible evidence of surreptitious German experiments, and they asked for speedy approval. Italian-born Enrico Fermi was the ideal man to lead the atomic research. Already in 1938 he had won the Nobel Prize for work with radioactive elements and neutron bombardment. Fermi had found a haven from the Fascists (his wife was Jewish) and he knew that if the Germans were the first to develop an atomic bomb it would mean that Hitler could subjugate the entire world. The international race for atomic supremacy was on.

*to take the bull by the horns—to face a problem directly*

THE ULTIMATE WEAPON TAKES SHAPE

Enrico Fermi designed a device that could eventuate in a chain reaction. It consisted of layers of graphite, alternated with chunks of uranium. The uranium emitted neutrons, and the graphite slowed them down. Holes were left for long cadmium safety rods. By withdrawing those control rods, Fermi could speed up the production of neutrons, thus increasing the number of uranium atoms that would be split (fission). When the rods were withdrawn to a critical point, then the neutrons would be produced so fast that the graphite and cadmium could not absorb them. In that manner a chain reaction would result. Slowly, Fermi’s first atomic pile began to grow in a subterranean room at Columbia University. The big question remained—was it viable?

THE SQUASH COURT EXPERIMENT

As the pile grew, so did the entire project. Fermi moved his materials to an abandoned squash court under a football stadium at the University of Chicago. His pace accelerated because they were proceeding on the premise that the Germans were close to atomic success. Six weeks after the pile had been started, its critical size was reached. Three brave young men jeopardized their lives by ascending the pile, ready to cover it with liquid cadmium if anything went wrong. Almost fifty scientists and several incredulous observers mounted a balcony to watch. One physicist remained on the floor; it was his job to extract the final cadmium control rod. Unbearable tension permeated the atmosphere. Fermi completed his calculations, waited for a propitious moment, and then gave the signal.

THE ITALIAN NAVIGATOR LANDS

The chain reaction took place precisely as Enrico Fermi had surmised. After twenty-eight minutes he curtailed the experiment, giving the signal to replace the control rod. The normally reserved scientists, unable to repress their excitement, let out a tremendous cheer and gathered around Fermi to shake his hand. Although it was time to celebrate, some of the men remarked soberly that “the world would never be the same again.” On December 2, 1942, the news of Fermi’s achievement was relayed in a cryptic telephone message:

“The Italian Navigator has reached the New World.”
“And how did he find the natives?”
“Very friendly.”
The Atomic Age was inchoate—but truly here!

SUNDAY MORNING AT PEARL HARBOR

At breakfast time on Sunday morning, December 7, 1941, Dorie Miller was serving coffee aboard the battleship West Virginia. Dorie was black, and the highest job to which he could then aspire in the U.S. Navy was that of messman. While Dorie was technically a member of a great fighting fleet, he was not expected to fight. Most Army and Navy officers inveighed against blacks as fighting men. Although blacks were nettled by such overt prejudice, Dorie Miller apparently accepted being relegated to the role of a messhall servant. Now, as he poured the coffee, Dorie was wondering why the airplanes above were making so much noise on a peaceful Sunday morning.

WEEK 14 ♦ DAY 2

THE INFAMOUS* ATTACK

The coffee cups suddenly went spinning as an explosion knocked Dorie Miller flat on his back. Jumping up from his supine position, the powerfully built messman from Waco, Texas, headed for the deck. Everywhere that Dorie looked he saw smoke and mammoth warships lying on their sides. Overhead, dozens of Japanese dive bombers controlled the skies without a U.S. plane to repulse their attack. The havoc was enormous. Without hesitating, Dorie joined a team that was feeding ammunition to a machine gunner who was making an ineffectual* attempt to protect their battleship from being razed by the torpedo planes.

WEEK 14 ♦ DAY 3

THE HEROISM OF DORIE MILLER

Men all around Miller were succumbing* to the lethal spray of Japanese bullets. He dragged his captain to safety and turned back to see that the machine-gunner had been killed. Dorie took the big gun and trained it on the incoming bombers. Within the space of ten minutes he was credited with destroying four bombers while dodging the bullets of their fighter escorts. The enemy scurried away, having struck the incisive blow that precipitated U.S. entrance into World War II. Amidst the dead bodies and the ruined fleet were the heroes such as Dorie Miller. The Navy had told him that he did not have to fight but he hadn’t listened. The Navy had attempted to stereotype him, but Dorie changed all that.

Sugar and Spice and Everything Nice

Teen Talk Barbie, the best-selling $50 model, has gone a step too far in the opinion of the American Association of University Women. Representatives of that group were ①________ to hear that one of the four phrases that the doll is programmed to utter is, “Math class is tough.”

For years the university professors, as well as members of feminist organizations, have ②________ against the ②________ that portrays girls as weak math and science students. “Because that brainwashing message is conveyed to girls at an early age, they come to accept what we consider to be a blatant ②________ ,” said Dr. Ellen Kaner, a Dallas chemist. “We are just beginning to make progress in our campaign to recruit women for challenging, well-paying careers in math and science,” she added, “and were shocked to learn that Barbie is spreading such harmful nonsense.”

Executives of the company that manufactures Teen Talk Barbie had to ⑤________ to set matters right. They admitted that the phrase in question, one of 270 selected by computer chips, was a mistake. In a press release, their president said, “We didn’t fully consider the potentially negative implications of this phrase. Not only will we remove it immediately but will swap with anyone who bought the offending doll.”
We wonder how Ken feels about the matter.
WEEK 15 ♦ DAY 1

DANNY ESCOBEDO GOES TO JAIL

In 1960, a young Chicagoan, Danny Escobedo, was given a 20-year jail sentence for first-degree murder. Danny had confessed to complicity in the killing of his brother-in-law after the police had refused to allow him to see his lawyer. Actually, Danny was tricked into blaming a friend for the liquidation of his sister’s husband, thereby establishing himself as an accomplice. Despite the fact that Danny later recanted his confession, he was found culpable and jailed. Danny had been stereotyped* as a hoodlum and nobody raised an eyebrow over the hapless* felon’s* troubles.

WEEK 15 ♦ DAY 2

ESCOBEDO’S LAWYER APPEALS

Barry Kroll, a Chicago lawyer, took an interest in Danny Escobedo’s case. Kroll felt that his client’s rights under the Constitution had been abrogated. Since the alleged accomplice,* Escobedo, had been denied access to an attorney, Kroll asked the courts to invalidate the conviction. He proposed that lawyers be entitled to sit in when the police question a suspect but the Illinois courts rejected that on the grounds that it would effectively preclude all questioning by legal authorities. If such a law were upheld, the police felt that it would play havoc* with all criminal investigations.

WEEK 15 ♦ DAY 3

AN HISTORIC SUPREME COURT RULING

Lawyer Kroll persevered in his defense of Danny Escobedo. The case was argued before the Supreme Court, and in 1964, in a landmark decision, the Court reversed Danny’s conviction. Legal aid, said the judges, must be instantly available to a suspect. “A system of law enforcement that comes to depend on the confession,” one Justice declared, “will, in the long run, be less reliable than a system that depends on extrinsic evidence independently secured through skillful investigation.” A Justice who declaimed against the decision said, however, “I think the rule is ill-conceived and that it seriously fetters perfectly legitimate methods of criminal enforcement.”

WEEK 15 ♦ DAY 4

THE EFFECTS OF THE ESCOBEDO DECISION

After Danny Escobedo’s release from prison, hundreds of inmates began suits for their freedoms on the grounds that their rights had been violated, too. Each case was heard on its merits, and in numerous instances people who had been convicted of serious offenses were freed because of the new standards established in the Escobedo case. After getting out, Danny was not a paragon of virtue, according to the police. He led a nomadic existence, drifting from job to job, and was arrested frequently. With asperity, and a few choice epithets, Danny referred to police harassment.* Although the Escobedo case was a controversial one, most agree that it inspired better police training, better law enforcement procedures, and improved scientific crime detection.

Questionable Advertisements

The Nostalgia Factory, a Boston art gallery, staged an exhibit of advertisements that had outraged various segments of the community. For example, one of the fast food chains ran a TV commercial that showed unattractive school cafeteria workers in hairnets, making that experience less tasty than a visit to Roy Rogers. Another ad that drew criticism from psychiatrists and groups such as the Alliance for the Mentally Ill suggested to readers that, if they had paid $100 for a dress shirt, they were fit candidates for a straitjacket. Similar sensitivity had restricted ad writers from using terms such as “nuts” or “crazy.”

Why such protests and where do they come from? Who is asking companies to ______ contracts with those agencies that are ______ in creating racist types of commercial messages? Parents who took exception to the Burger King spot that announced, “Sometimes You Gotta Break the Rules,” said no to it because it gave the wrong message to their children. And when a potato chip maker’s ad featured a “bandito,” angry Mexican-Americans used some choice ______ in denouncing such a stereotype.

The conclusion to be reached is that segments of the population have become increasingly vocal about “insensitive” ads, demanding that corporations ______ and never again commission advertisements that are clearly ______.
provocative, and harmful to good human relationships.
MEET THE BEES

One of the most interesting inhabitants of our world is the bee, an insect that is indigenous to all parts of the globe except the polar regions. The honeybee is a gregarious insect whose habitat is a colony that he shares with as many as 80,000 bees. Although the individual bees live for only a few days, their colony can be operative for several years. A cursory study of the activities of these insects reveals an orderliness and a social structure that is truly amazing. For example, bees in a particular hive have a distinct odor; therefore, when an interloper seeks access* they can identify him quickly and repulse* his invasion.

QUEENS, WORKERS, DRONES

Each colony of honeybees consists of three classes: a) the queen who is a *prolific* layer of eggs; b) the worker who is the *bulwark* of the colony; and c) the *sedentary* drone whose only function is to mate with a young queen. The queen lays the eggs that hatch into thousands of female workers; some queens live as long as five years and lay up to one million eggs. The *frugal* worker builds and maintains the nest, collects and stores the honey, and is the *antithesis* of the lazy drone, or male honeybee, who does not work and has no sting. When the drone is no longer needed, the workers, in effect, liquidate* him by letting him starve to death. It’s a cruel, cruel world!

SPOTLIGHT ON THE WORKER

Let us examine the activities of the altruistic workers in greater detail. After the workers have constructed a hive of waterproof honeycomb (made from beeswax), the queen begins to lay eggs in the first cells. While some workers embellish the hive, others fly out in search of nectar and pollen. With their long tongues they gather nectar and use their hind legs to carry the pollen from the flowers. They fly directly back to the hive and then dance around the honeycomb, their movements indicating the direction of the flowers. Meanwhile, other workers have been cleaning cells, caring for the young, and guarding the precious cache of nectar. Another special coterie is entrusted with heating or cooling the hive. Dedicated to the welfare of the queen and the entire insect community, all of these workers display a complete absence of cupidity.

to make bricks without straw—to attempt to do something without having the necessary materials (In the Bible we read that the Egyptians commanded the Israelites to do so)

My uncle’s business schemes always fail because he tries to make bricks without straw.
THE SAGA OF THE QUEEN BEE
Although the virtuosity of the workers is remarkable, the queen bee is really the main story. Workers choose a few larvae to be queens, feeding them royal jelly, a substance rich in proteins and vitamins. While the queen is changing from a larva to a pupa, a team of workers builds a special cell for her. Soon the young queen hatches, eats prepared honey, and grows strong. After she kills any rivals who have the temerity to challenge her, an amorous note is injected. She flies from the hive and mates with one or more drones on her first flight. Then the process of egg laying begins. When her progeny saturate the hive, scouts are dispatched to find a new location, and the bees swarm after their leader to begin the amazing cycle again.

Cheating a Cheater

“Our neighborhood was so tough,” the comedian joked, “that two guys held up a bank and were mugged as they ran to their getaway car.”

Later that evening, as Roy and Timmy were discussing the comic’s routine, Roy was reminded of a true (he said) story that went like this:

Mr. D., the gang kingpin in our community, loved money. Like Silas Marner, the ⑥ _______ weaver of George Eliot’s novel, he enjoyed counting his treasure each Friday night. Mr. D’s ⑦ _______ was concealed in a wall safe behind a painting in his office. The $50 and $100 bills made his hands dirty as he counted them but Mr. D didn’t mind. The filth of the lucre did not disturb him at all.

One Friday evening, Roy continued, a brash ⑧ _______ had the ⑨ _______ to try to steal the ill-gotten gains. Having bought the combination from a relative who had installed Mr. D’s safe, he stuffed his loot into a laundry bag and was halfway out the door when he spied a $10 bill on the floor. His ⑩ _______ made him go back for that small change, and in that moment, Mr. D. arrived on the scene.

The quick-thinking thief blurted out, “I’ll have the shirts back on Friday.” Hoisting the laundry bag over his shoulder, he was out the door before the
confused mobster could figure out what had happened.

Timmy, who had listened patiently, said, “I don’t believe a word of that story because it would take a guy with a great deal of starch to pull it off!”

A Plan to Fool the Nazis

One of the truly remarkable stories of World War II concerns a ruse* that was perpetrated with such consummate skill that it saved the lives of many Allied troops and helped to shorten the war. The simple, bold, and ingenious subterfuge which British officers concocted is the subject of Ewen Montagu’s classic, The Man Who Never Was. In short, the idea was to plant fallacious documents concerning the Allied invasion of Europe upon a dead officer, have his body recovered by agents who would transmit the false information to Germany, and then observe the effects of the plan.

“MAJOR MARTIN” GOES TO WAR

After Commander Montagu and his colleagues had been given official approval for their dangerous escapade, they encountered manifold problems. First, they conducted an assiduous search for a body that looked as though it had recently been killed in an airplane disaster. Then, a detailed history of the man had to be invented that would be so impeccable that the enemy would accept its authenticity. This meant documents, love letters, personal effects, keys, photographs, etc. Each step was fraught with difficulty, but the schemers were unbelievably resourceful. As a result, in the late spring of 1942, “Major Martin” was prepared to do his part for his country.

THE PLOT THICKENS

A submarine took the body out to sea. Then, “Major Martin,” the man who never was, was slid into the murky Atlantic waters off the coast of Huelva, Spain. Attached to this courier’s coat was a briefcase that contained the components of the hoax. Shortly thereafter, the Spanish Embassy notified the British that the body had been recovered. But Commander Montagu learned that the important documents had already been scrutinized* and later resealed so that the British would not be suspicious. The secret information was transmitted to the German High Command, through a labyrinth of underground networks, to be evaluated. Now the true test of the months of assiduous* planning would come—the question remained, would the Germans swallow the bait?

A PUZZLE FOR HIS MAJESTY

The conspirators had reason to exult, for all evidence attested to the fact that the German High Command was gullible about “Major Martin.” Their defense troops were moved away from the true invasion sites and deployed to areas that were inconsequential. Subsequently, when the actual attack took place, Allied casualties were minimized. After the war, Commander Montagu received a medal from the king of England. At the presentation ceremony, the king politely inquired where the young officer had earned his citation. “At the Admiralty,” Montagu replied, presenting the king with a genuine enigma.

WEEK 17 ♦ DAY 5
REVIEW

Major Martin, if he had lived, would have used the word “bonnet” to refer to the hood of his auto, and he might have referred to a truck as a “lorry.” As you can see, there are differences between American and British English. But Major Martin, undoubtedly, would have known all the words below—do you?

Brother, Can You Spare a Dime?

The U.S. Department of Health and Human Services, in a ①________ review of Social Security disability payments, focused on Jack Benson, a ②________ Seattle panhandler. Mr. Benson had claimed that whatever money he collects on the street can be compared to the funds raised by legitimate charities, and, therefore, he is entitled to a federal deduction. Government officials regard his analogy as ③________ and disagree. It is their contention that, since Benson’s income is unearned, it should be subtracted from his disability payments.

Mr. Benson may not be highly regarded as a street beggar but that didn’t stop him from going into the Federal District Court in Oregon to plead that his appeals for cash are an art form, thereby making him eligible for most of the $472 a month that he had been receiving. Not so, declared the government, quoting from a 1990 ruling that found that “money received through begging is better classified as ‘gifts’ rather than as ‘wages’ or ‘net earnings from self-employment.’”

Mr. Benson’s lawyer, plunging into the legal ④________, has not given up. She countered that, if Jack merely sat on a street corner with his hand out, the government had a good case. However, in her words, “Jack Benson is a ⑤________ professional who has elevated begging to a respectable level because of his skill in actively seeking contributions.”
It may take all of Benson’s talent as a salesman to get the government to put some money in his collection basket.
TEACHING CHIMPANZEE TO TALK

Two resourceful* psychologists at the University of Nevada have made splendid progress in vocabulary development in chimpanzees. Following a number of abortive attempts to teach French, German, or English to chimps, the researchers persevered* until they hit upon the American Sign Language system that is often used by deaf persons. They have had to modify the language somewhat in order to accommodate the animals’ spontaneous gestures. With a mixture of innate movements and learned ones, some laboratory chimps now have an extensive vocabulary.

Sample Sentences Use the new words in the following sentences.

1. His _______________ cunning allowed him to see through the spy’s subterfuge.*
2. The divers made an _______________ attempt to rescue the dog from the murky* waters.
3. Because Phil refused to _______________ his philosophy, the directors were forced to invalidate* his appointment.
4. My English teacher admonished* me: “I realize that the speech was to be _______________ , but it was not supposed to be incoherent* or fraught* with fallacious* statements.”
5. A quarrel was precipitated* when the dietician refused to _______________ the patient’s special needs.

CHIMPANZEEs ARE SURPRISINGLY SMART

Washoe, the chimpanzee, has more than a veneer of intelligence; she can signal her desire to eat, go in or out, be covered, or brush her teeth. In addition, she can make signs for “I’m sorry,” “I hurt,” “Hurry,” “Give me,” and a myriad of other terms that are familiar to young children. This urbana animal can indicate that she craves more dessert by putting her fingers together (“more”) and then placing her index and second fingers on top of her tongue (“sweet”). It is irrelevant that Washoe cannot actually talk. What is important, however, is the consummate* ease with which she has mastered her daily assignments.

Sample Sentences Use the new words in the following sentences.

1. Why did Silas Marner ________________ wealth and practice cupidity*?
2. Once the hoax had been concocted*, a ________________ of problems arose.
3. The defendant was alleged* to have been an army deserter, but the judge said that was ________________ to the case.
4. By embellishing* her work with ________________ humor, the sophisticated playwright succeeded on Broadway.
5. The lieutenant confessed to a ________________ of ignorance in order to properly evaluate* his corporal’s resourcefulness.*

**EASY TO TRAIN**

The chimpanzees are *deemed* by scientists to be the closest to man of all the living apes; consequently, they are fairly easy to train. Several years ago, two married researchers embarked on an interesting project: they reared and trained a chimp in almost the same manner as they would have raised a child. The animal did beautifully, convincing the couple of the *inherent* ability of the chimpanzee. Cinema *buffs* who have seen Tarzan’s clever monkey *romp* through the jungle also recognize the *latent* intelligence of those animals.

WEEK 18 ♦ DAY 4

MORE FACTS ABOUT CHIMPS

Chimps in the laboratory have demonstrated their ability to find their way out of the most tortuous maze. They can press buttons, manipulate levers, avoid shocks, etc. When food is placed out of reach, the animals can prepare a ladder of boxes to reach it. In his natural habitat* the chimpanzee is something of an itinerant. He goes his nomadic* way through the jungle, living on fruit, insects, and vegetables. With the aid of his long, powerful hands he can swing rapidly from tree to tree and cover considerable ground in his peregrinations. Chimps are loyal in their conjugal relationships, taking only one mate at a time. That may be another barometer of these animals’ superior intelligence.

Sample Sentences Use the new words in the following sentences.

1. The other drivers were nettled* about the ease with which our car ascended* the _______________ road.
2. Arguments over money have often led to _______________ havoc.*
3. The sedentary* twin was content to follow his brother’s _______________ on a map.
4. Signs were posted in the lobby to prevent _______________ beggars and others of that ilk* from entering.

A Shameful Situation

The plight of the migrant farm worker continues to frustrate the U.S. Labor Department, court officials, legislators, religious groups, and community agencies. Men, women, and children toil six and seven days a week to earn as little as $50 to $60 a week after being overcharged for their food, medicine, and basic living needs. They are housed in ramshackle dormitories, often with non-functioning toilets—a ① ______ of their employers’ contempt for them; they lack hot water and showers, and are given food that is barely fit for human consumption.

Unscrupulous contractors scour the countryside in search of homeless, ② ______ , and unemployed men and women, offering to put them to work at good jobs picking fruits and vegetables. The U.S. Labor Department investigates the ③ ______ of complaints of abused workers, issues fines, and revokes the licenses of contractors. But many such shady employers pay the fines (which they ④ ______ to be operating expenses) and continue to run company stores that cheat the workers, subjugate them with drugs and alcohol, ⑤ ______ them with advances on their paltry wages at high interest, and use violence against those whom they regard as troublemakers.

Fred Jones, a typical migratory worker from South Carolina, claims to have worked for $6 cash out of his $158 check. His story is repeated by hundreds of
others who have been treated shabbily by corrupt contractors. Until sufficient funds are allocated by state and federal agencies, and until there is the proper public response, these abuses will continue.
TROUBLE IN RURITANIA

King Andre of Ruritania was afflicted* with megalomania, and the people of his country suffered, as a result. After ten years of his profligate rule, the treasury was bankrupt, unemployment was rampant*, domestic strife was mounting, and the number of the king’s opponents who were incarcerated* were legion. Following a bloodless coup, his nephew, Prince Schubert, took command of the poor nation.

Sample Sentences Based upon your understanding of the new words, as discovered from the context, use the correct words in the following sentences.

1. With a singular* disregard for his family, the ________________ husband spent his salary on alcohol.
2. Each spouse said that the other was culpable* for their conjugal* ________________.

Today’s Idiom

to play possum—to try to fool someone;
to make believe one is asleep or dead

Sensing that his life was in jeopardy*, the hunter played possum until the voracious* lion disappeared.
PRINCE SCHUBERT IN ACTION

Prince Schubert’s first move was to declare an amnesty for political prisoners and to invite home all Ruritanian expatriates. Those who had been jailed on false charges were exonerated by special tribunals. The young leader announced that he would abrogate all of the oppressive fiats that his predecessor had promulgated.* Things began to look up temporarily for the citizens who perceived in Prince Schubert the sincerity, idealism, and honesty that had been lacking in the mendacious King Andre.

Sample Sentences Use the new words in the following sentences.

1. The publisher’s ________________ claims led to a myriad* of law suits.
2. When the jury began to deliberate, they were prepared to ________________ the culprit.*

WEEK 19 • DAY 3

REFORM MOVEMENT

In order to improve Ruritania’s financial position, an astute* but parsimonious treasurer was installed and given wide pecuniary powers. He tried to get the little country back on its feet by slashing all waste from its budget, dismantling King Andre’s sumptuous palaces, and firing all incompetents. In addition, Prince Schubert was able to get the United States to underwrite a substantial loan that would enable him to start a program of public works. Even so, Ruritania was still in desperate trouble.

Sample Sentences Prove that you are not a flash in the pan* by using the new words correctly in the following sentences.

**WEEK 19 ♦ DAY 4**

**DISAPPOINTMENT AND DEDICATION**

When Prince Schubert asked for additional restrictive measures, the people began to balk. Speaking on radio, the young reformer explained the reasons for higher taxes and food rationing; he was blunt when he stated the need for personal sacrifices. Nevertheless, the resistance to reform was great, and nostalgia for the “good old days” of King Andre began to grow. The people admitted that graft and corruption had been rife under Andre, but at least “everybody got his slice of the pie.” Although Prince Schubert was tempted to quit, he determined that he would help the people in spite of themselves.

Ogopogo

Accounts of supersized creatures such as the Loch Ness Monster and the Abominable Snowman are ⑥________. Despite the lack of hard evidence, some people continue to believe that the depths of our lakes and isolated mountain caves remain the dwelling places of fantasy figures.

Now, a new star for the credulous has surfaced. Japanese television was asked to ⑦________ a search for Ogopogo, a long-necked reptilian creature said to inhabit Lake Okanagan in the mountains of south-central British Columbia. Ogopogo stories are ⑧________ in that area as people produce photos of rippling water and shadows resembling an enormous serpent with flippers, gliding slowly in large circles.

Those who ⑨________ at what they regard as nonsense and pagan superstition are quite ⑩________ in belittling Ogopogo fans. Nevertheless, the legends, which have a life of their own, happily, have brought thousands of tourists and business to the Okanagan Valley.

Recognition of the creature now exists in British Columbia’s environmental law which provides protection for Ogopogo. The official description reads, “An animal in Okanagan Lake, other than a sturgeon, that is more than three meters in length, and the mates or offspring of that animal.”
Been wondering about the creature’s name? Ogopogo comes from an English music hall song: “His mother was an earwig; his father was a whale; a little bit of head and hardly any tail—and Ogopogo was his name.”
WEEK 20 ◆ DAY 1

LA CUCARACHA—THE COCKROACH

The poor cockroach has been called the “most reviled creature on the face of the earth.” Nobody loves him—except, perhaps, another cockroach. Fiction, nonfiction, and poetry are replete* with derogatory references to these ubiquitous* bugs. Public health officials are quick to indict the insects as carriers of viruses that cause yellow fever and polio. Although past evidence has been somewhat nebulous, recent studies also show that an allergy to roaches may contribute significantly to asthma. Little wonder, therefore, that the pesky cockroach is under attack.

The U.S. Public Health Service admits to frustration* in its attempts to destroy the cockroach. As soon as the scientists devise a puissant chemical, some bugs succumb.* But the hardy ones survive and breed a resistant strain. Since the average female produces close to three hundred descendants, little hope is held out for a final solution to the roach problem. Nevertheless, extermination campaigns continue unabated. Surprisingly, some sentimental souls become maudlin as they consider the persecution of the insects. A writer noted for his levity made a lugubrious plea for a crash program of aid for the cockroach, calling him “a victim of his slum environment.”

Chlorine Compounds on Trial

The chances are that the water supply where you live is disinfected by chlorine, one of the elements on the periodic table. Yet, ①_____ complaints about chlorine continue ②_____, identifying it as a health and environmental risk.

Greenpeace, the environmental activist group, stands ready to ③_____ chlorinated organic elements, alleging that they are toxic. The Federal Environmental Protection Agency is reexamining the health hazards that are prevalent when materials containing chlorine are processed at high temperatures. And, worldwide, nations are banning chlorine compounds that destroy the earth’s protective ozone layer. Harsh treatment, it would seem, for one of nature’s basic elements, a component of the table salt we use.

When we enter a pool that is ④_____ with the aroma of chlorine, we don’t associate it with the ⑤_____ element now being blamed for tumors, reproductive problems, arrested development, destruction of wildlife, and sundry other ills that plague our planet.

A scientist with the Environmental Defense Fund thinks that chlorinated chemicals should be phased out. “We know they will be persistent if they get into the environment,” she said. “They are soluble, so they will build up in the fat of fish, birds, and people.”

Prince Siddhartha Gautama was the scion of a family of warrior-kings in northern India. He was being indoctrinated for the time when he would assume his father’s throne. Growing up in an atmosphere of opulence, the young prince was constantly shielded from the cruel realities of the world. An army of obsequious servants and tutors catered to his every desire, providing Siddhartha with instruction in riding, fencing, dancing, and painting—while lavishing fulsome praise upon him. It wasn’t until the prince was thirty that he took the first step that led to his becoming the Buddha, one of the world’s greatest spiritual leaders.

Buddha outlined the three paths that men might travel: worldly pleasure, self-torment, and the middle path. Only through the middle path could man achieve bona fide peace and salvation. One had to repudiate materialism, keep his self-control, restrict speech, be open-minded, never lie or steal, reject selfish drives, nurture goodness, etc. Buddha continued to preach until the age of eighty, spreading the philosophy that man has the power to shape his own destiny. Through good deeds and pure thoughts man may reach nirvana. Interestingly enough, the man who objected to traditional religious worship was to become idolized by millions throughout the world.

**History’s Most Extraordinary Person?**

In a celebrated essay about Joan of Arc, Mark Twain wrote movingly of her brief moment in the spotlight—two short years in which she made an indelible mark on world history. At age 16 she was illiterate, had never strayed from her sleepy little village, knew nothing of military combat, or courts of law. But at age 17, in a complete she was named Commander-in-Chief of the French army, vowing to restore her king to his throne. Joan attracted many fervent followers, and a called her “France’s .”

After much gallantry in battle, this heroine was brought low by treachery at the French court and captured by the enemy. Joan defended herself brilliantly at a court trial, although she could neither read nor write. She was able to forecast future events with remarkable accuracy, correctly predicting her own martyrdom.

Mark Twain understood how geniuses such as Napoleon, Edison, and Wagner could develop but one could the facts for a lifetime without being able to explain how this humble peasant girl could display the qualities of a mature statesman, a learned jurist, and a military wizard. He concluded:

“Taking into account her origin, youth, sex, illiteracy, early environment, and the obstructing conditions under which she exploited her high gifts and made
her conquests in the field and before the courts that tried her for her life—she is easily and by far the most extraordinary person the human race has ever produced.”
FEMALE ALCOHOLICS

When we juxtapose the words “woman” and “alcoholic” many readers are surprised. However, the plight of America’s several million female alcoholics is rapidly increasing in intensity. But the statistics are inexact because it is estimated that there are nine covert alcoholics for every one under treatment. Women drink to help themselves to cope with life’s vicissitudes.* They drink because of financial pressures, incompatibility, frustration,* and related reasons.

WEEK 22 ◆ DAY 2

A PROFILE OF THE WOMAN WHO DRINKS TO EXCESS

The typical alcoholic woman is above average in intelligence, in her forties, married, with two children. She started drinking socially in high school or college. Although frequently incapacitated, she can fabricate a story skillfully and thus conceal her true physical condition. She often attributes her alcoholism to connubial stress, boredom, or depression. A large percentage of the women give family histories of alcoholism. Most female drinkers would demur at the appellation of “alcoholic”—and that makes their treatment all the more difficult.

IMPORTANT NOTE: How good a detective are you? Did you spot one of the new words that had been introduced earlier? (fabricate) It should be part of your vocabulary now. From time to time in the lessons that follow, your alertness will be tested as a previously learned word is reintroduced.

NEFARIOUS* EFFECTS OF ALCOHOL

Aside from the reasons offered earlier, doctors have other interesting reasons for the escalation in female drinking. They also indict social acceptance and indifference to alcohol’s potential danger as contributory factors. If women realized the harmful extent of the cumulative effect of alcohol, they might taper off in their public and recondite drinking. Forty-three percent of the female alcoholics in a survey showed evidence of liver damage, and a quarter of the whole group had a high white-blood-cell count. Almost five percent of the patients died shortly after their release from the hospital.

Hair Today, . . .

The fact that a hair salon might charge $40 for a woman’s shampoo and haircut but only $20 for the same services for a man is a matter of ①______ to most citizens. Not so to New York City’s Commission on Human Rights, which claimed that such a disparity is discriminatory. Commissioner Dennis De Leon has targeted “gender-based” pricing as a violation of city law.

Consider the ②______ of the salon owners. They ③______ the price difference, explaining that it takes much longer to cut a woman’s hair and requires the use of additional products. But a spokesperson for the Department of Consumer Affairs said that beauty parlors will have to ④______ with the situation honestly, just as dry cleaners and used-car dealers did when they were apprised of the law.

“I know that women are fighting for equality,” said the owner of a chain of unisex hair salons, “but this is ridiculous. We cut a man’s hair in no time but we have to get more money from our female customers because their styling and cutting takes so much longer.”

The argument might be the ⑤______ to an important court case. A city-proposed settlement, however, is to have those salons that are cited for violations of the law offer free haircuts to women for a period of three months.
before having to pay a stiff fine for repeated offenses.

“It’s easier to comply,” shrugged one owner (bald, himself).
FROM A TO Z

Ellis Sloane, a teacher of science at a large metropolitan high school, first paid little attention to the fact that his two biology classes were so disparate* in their performance. In most schools the classes are alphabetically heterogeneous, with youngsters’ names running the gamut from Adams to Zilch. But Biology 121 had only A’s and B’s, whereas Biology 128 had T’s, V’s, W’s, Y’s, and Z’s. Mr. Sloane, a perspicacious* teacher, began to perceive* differences between the two groups: while their reading scores and I.Q.’s were roughly analogous, it was apparent that Biology 128 was replete* with maladjusted* students, while Biology 121 had the normal ones.

WHAT’S IN A NAME?

As Mr. Sloane pursued his investigation of the phenomenon, he discovered that a Dr. Trevor Weston of the British Medical Association had corroborated his findings. Dr. Weston had studied British mortality rates over a decade, finding that people whose names began with letters ranging from “S” to “Z” had a life expectancy that averaged twelve years fewer than the rest of the population. Furthermore, those at the bottom of the alphabet tended to contract more ulcers, were more susceptible to heart attacks, and were more likely to be neurotic than those at the top of the alphabet.

Sample Sentences Use the new words in the following sentences.

1. Irritability is one of the salient features of a _________________ personality.
2. After a _________________ of connubial acrimony, the couple decided to consult with a marriage counselor.
3. If a miner were to ponder over the high _________________ rate in his occupation, he might want to quit.
4. Ethan Frome soon learned that his querulous wife was _________________ to a variety of ailments.

**WEEK 23 ♦ DAY 3**

**THE PERILS OF THE ALPHABET**

Dr. Weston is convinced that the **pedagogue** is the culprit.* Since teachers seat their pupils in alphabetical order, the “S” to “Z” child is usually the last to receive his test marks, the last to eat lunch, the last to be dismissed, and so on. As they are the last to recite, these youngsters feel frustrated* because what they had to say had usually been **enunciated** earlier. The **inordinate** amount of waiting that this group has to do causes them to become **irascible** and jittery. “S” to “Z” people also become quite **introspective**, convinced that they are inferior to those at the top of the alphabet.

IN THE NATURE OF EDUCATIONAL REFORM

Mr. Sloane did not want to perpetuate the disorders that stemmed from the alphabetical arrangement. Not only did he reverse the seating in his other classes, but he began to badger* the school’s administration for a mandate to bring about such changes throughout the building. He called it a compensatory factor to neutralize the catastrophic effects of the traditional policy. Soon, Mr. Sloane earned the appellation* of “Mr. Backwards.”

Microsociety—An Antidote for School Boredom

Money, taxes, employment, legislation—these are topics that we associate with the adult world. George Richmond, a Yale graduate who became a \( \text{①} \) in the New York City school system, felt that elementary school youngsters could also be interested, even excited, about such issues. He experimented in his own classes with the Microsociety in which basic instruction takes place and is reinforced as pupils operate their own businesses, pass laws, live within the parameters of a constitution that they drafted, seek redress within their own judicial system, buy and sell real estate, and so on.

Richmond’s book on the Microsociety came to the attention of the school board in Lowell, Massachusetts, and their members decided to give it a try in 1981. In much less than a \( \text{②} \) the results were quite remarkable: students exceeded the norm in reading and math; 8th graders passed college level exams; school attendance went up to 96%; and the dropout rate took a nosedive in Lowell.

In Microsociety’s \( \text{③} \) classes, mornings are given over to the traditional curriculum. In the afternoon, the students apply what they learned in activities that run the \( \text{④} \) from keeping double entry books, doing financial audits, running a bank, and conducting court sessions to engaging in light manufacture that leads to retail and wholesale commerce.
Other school systems have since adopted George Richmond’s innovative ideas. “Microsociety,” said a Yonkers, New York principal, “gets kids to role-play life!”

A *Time Magazine* reporter was much impressed with *Microsociety’s* results: “Such an approach would go a long way toward making U.S. public schools a cradle of national renewal.”
PRIMITIVE MAGIC

In the course of their studies of other cultures, anthropologists have reported numerous customs and practices that seem bizarre to the average American. Many primitive people believe that certain inanimate objects have a will of their own and possess some magical powers. These fetishes may be simple things like a particular feather of a bird or a unique pebble. The fetish might have derived its power, according to members of some tribes, from a god who lives within the object and has changed it into a thing of magic. Fetishes need not only be natural objects, however. An artifact such as a sculpture or carving is also believed to possess supernatural powers.

Sample Sentences Now use your new words in the following sentences.

1. Stones are ____________ objects that have no life of their own.
2. It has been suggested that the man who builds a better mousetrap will find the world beating a path to his door to possess this ____________.
3. The explorers saw the golden statue and thought of how much money it would bring them. But their lives would be in danger if they moved it because it was a powerful ____________ to the natives.
4. Margaret Mead, the famous ____________, fascinated thousands of readers with her studies of South Seas islanders.
5. It would be rather ____________ for a young man to come to school wearing a dress.

FORBIDDEN

An outgrowth of the idea of a fetish* is the closely related practice of taboo. Whereas the gods or supernatural powers merely inhabit an object that is a fetish and lend it magic, they will punish the imprudent native who violates their prohibition of an act or use of an object or word that has become taboo. If a taboo has been broken, it becomes imperative for the offender to be punished. In many cases, however, the taint on the community may be removed after the priests have performed a special ceremony. Often, the violator of the taboo will be punished or die merely through his own fears of the terrible thing he has done.

Lebron James is obviously a basketball player of *the first water* who would be of enormous value to any team.
Although it is probably universal human behavior to be contemptuous of the bizarre superstitions practiced by inhabitants of unfamiliar cultures, it seems to be somewhat imprudent to laugh at others before one takes a good, hard look at the absurd taboos and fetishes one accepts as part of one’s everyday life. Isn’t it somewhat absurd when the “dyed-in-the-wool” bigot, who illogically fears the taint of close association with blacks (behavior that resembles fear of a taboo), spends most of the summer lying in the sun trying to acquire the color he claims to abhor? Since doctors tell us that excessive sun-tanning may be a cause of skin cancer, our strange yearning for sun-darkened skin has all the qualities of a fetish.*

GESUNDHEIT!

During the Middle Ages most people believed that the devil could enter our bodies when we sneezed, because at that propitious* moment we left our bodies vulnerable. However, this catastrophic* event could be avoided if another person immediately made an entreaty to God. This was how the practice began of saying “God bless you” after someone sneezes. Although the tradition continues today, few people are aware of its history. A superstition originates in ignorance—when people are unsure of the causes of events. But it continues inviolable over the years because it usually represents our deepest fears.

Map Makers at Work

We are all caught up in the events that change history and the shape of the countries in Asia, Africa, and the Middle East. Each time a country changes its name or its borders, there are some people who have their work cut out for them. They are the map makers—the cartographers. These skilled artists know it is ①_______ to believe that this year’s borders will remain fixed. Has there ever been an ②_______ border?

Looking through an atlas of just a few years back, we realize it is simply an ③_______ of an ever-changing world. If there is one thing for map makers to do, it is to realize how ④_______ it is for them to keep abreast of world events.

The study of world history is replete with exciting events that have shaken the economic and political past. Geography is the physical rendering of these events. As history moves and changes our lives, it is up to the cartographer to take the ⑤_______ lines of a map and shape the picture of this world in motion. A quick search of Google Earth brings our ever-changing planet to our screen.
THE EXPLOSION OF KRAKATOA

There are few sights that are more impressive and awesome than the eruption of an active volcano. There are few natural events that so singularly* dwarf man’s puny attempts to control his environment. Perhaps the greatest volcanic eruption of modern times took place in 1883 when the island of Krakatoa in Indonesia blew up as the result of a volcanic explosion. An enormous tidal wave resulted that proved catastrophic* to the nearby coasts of Java and Sumatra. New islands were formed by the lava that poured out, and debris was scattered across the Indian Ocean for hundreds of miles. Volcanic material, dispersed seventeen miles into the atmosphere, created startlingly beautiful sunsets for years afterwards.

A UNIVERSAL* DANGER

Man’s ability to obliterate life on this planet has increased at a rapid rate. We are now faced with the deplorable prospect of new weapons that can cause destruction of life and property on a scale far beyond our imagination. No matter who takes the first step to initiate a conflict, the possibility exists that the conflagration will spread and envelop the world. Much thought has been given to ways and means of preventing this catastrophe.* Some consider it mandatory* that the nuclear powers seek agreement on methods of limiting and controlling these weapons, for in the absence of such an agreement, we may rue the day atomic energy was made practical.

Taken for Granted

The presence of an ever-flowing supply of fresh, clean water is taken for granted. Unfortunately, this congenial condition is fast disappearing. As our population increases, as industry consumes more water each year, the level of our underground water supply sinks measurably. There is no way to hoard water; there are many ways to conserve it. During a particularly dry spell, New York City found its reservoirs going dry. Only then did the residents begin to heed the sage advice to limit the wasteful uses of water. Under the aegis of the Water Commissioner, citizens were encouraged to develop habits that would save water. The continued imprudent* waste by each of us of this most basic resource will work to the detriment of all.

Sample Sentences Here’s your opportunity to use your new words.

AN AGELESS STORY

Every so often we can read about a man or woman who has reached an age far beyond the limits we ordinarily expect. Reports of a man in Chile or a woman in Turkey who has celebrated the 105th or 110th birthday occur regularly. The natural question is, to what do these people owe their longevity? Frequently, the answer concerns the fact that the ancient one liked to imbibe regularly of some hard liquor. The photograph will show an apparently virile man or robust woman. Somehow, people who reach this advanced age seem to remain eternally sturdy. There are no signs that they have become senile. Smoking a pipe, or sewing on some garment, these rare specimens of hardy humanity are far from the doddering folk we expect to see.

Sample Sentences Use the new words in these sentences.

1. Far from being ________________, the old woman was considered the sage* of the neighborhood.
2. Scientists have placed the ________________ of the planet earth unbelievably into the future.
3. It was deplorable* for us to see her ________________ around the house with the aid of a cane.

Save the Whales, at Least

Have we all become tired of the much used word “environment”? How often we hear or read about the ①_______ state of the world’s rivers, forests, air, and earth. When we lose sight of the fact that countless numbers of creatures have become extinct because their environment could no longer sustain them, then we ignore the possibility that these same changes could ②_______ many species that we take for granted.

Our life-style, and that of the billions of others on this earth, puts waste into the air and water. We may ③_______ this careless behavior. While there may still be enough clean water and air for us, the loss of animals and plants can only be a ④_______ to a good life for the generations that follow.

No one suggests that the solutions to our environmental problems are easy. The nations and people of the world are in competition for the limited riches of this planet. It will take the saggest and most dedicated leaders, under whose ⑤_______ educated and concerned citizens will live and work, to protect the environment.
INFORMING THE PUBLIC

Public opinion has an important place in a democracy. The public, often lethargic, is susceptible* to a wide variety of influences. The most prevalent of these is the mass media. These communications media—the press, radio, and television—have a paramount position in initiating,* influencing, and shaping public opinion. Bearing this responsibility, the mass media are often accused of being remiss in their duty to inform the public. There has been a great deal of hostile comment leveled against these opinion molders.

Sample Sentences Based upon your understanding of the new words as discovered from the context, use them in the spaces provided.

1. The audience became extremely ________________ when the bigot* began to attack minority groups.
2. Long hair among boys is so ________________ today, there is no longer a prohibition against it in most schools.
3. We are all susceptible* to a ________________ feeling after a heavy meal.
4. A good politician seeks the ________________ issue in his community.
5. We would be ________________ if we overlooked the importance of the Internet to the interchange of ideas and information.

7. prevalent b. lazy, indifferent
8. paramount  c. antagonistic, angry
9. remiss      d. supreme, foremost
10. hostile    e. careless, negligent

**Today’s Idiom**

_to split hairs_—_to make fine distinctions_

The mother and child spent a great deal of time arguing about the _hair-splitting_ question of whether “going to bed” meant lights out or not.
THE LACK OF FOREIGN NEWS

The critics rebuke the press for the fact that most newspapers devote somewhat less than 10 percent of their news space to foreign items. In many hundreds of papers this falls below two percent. Why is there this aversion to foreign news? Newsmen claim that readers evince no interest in foreign affairs. In order to increase reader interest in foreign news, the vogue among editors is to sensationalize it to the point of distortion. Many other papers do only the most superficial kind of reporting in this area.

Sample Sentences Use the new words in these sentences.

1. The female __________to mice is considered absurd* by boys.
2. After a __________examination of the injured motorist, the doctor said that hospitalization was imperative.*

To strike while the iron is hot—to take an action at the right moment

As soon as John heard that his father had won in the lottery, he struck while the iron was hot and asked for an increase in his allowance.
PLAYING IT SAFE

The average newspaper office receives many times more foreign news than it has space to print. The editor must include or jettison items as he sees fit. It is inevitable that his ideas of what the reader want to know, or should know, are decisive. Because the newspaper owners do not want to endanger a lucrative business, there is the constant tussle between personal opinion and the desire not to offend too many readers or advertisers. It is intrinsic to the operation of all mass media that they avoid being extremist in their news coverage or editorials.

Sample Sentences Use the new words in these sentences.

1. Our conscience must always ________________ against our yearning for what we know is taboo.*
2. Man sets the price of gold; it has no ________________ value.

WEEK 26 • DAY 4

A FAVORITE NEWS SOURCE
The electronic media—television and radio—have more acute problems than does the press when it comes to news reporting. A normal broadcast can cover only a small part of a news day. The object is to transmit the gist of a story without supplying its background. Another difficulty of electronic news broadcasting is its transient nature; the viewers or listeners may miss an important story if their attention wanders. On the other hand, because radio and television present news in a more terse and exciting way, they are accepted as the most cogent presentation of news and are preferred and believed above newspapers by most people.

Sample Sentences A slow and thorough study is needed today.

1. After the catastrophe,* there was an ____________ need for emergency housing.
2. The young lover was susceptible* to ____________ feelings of jealousy when he saw his sweetheart dancing with his best friend.
3. She tried to get the ____________ of her message into a 25-word telegram.
4. The mayor made a ____________ statement in which he rebuked* his election opponent for making a contemptuous* accusation.
5. The best debater makes the most ____________ presentation.

Definitions This day’s work requires careful study.

6. acute a. forceful, convincing, persuasive
7. gist
8. transient
9. terse
10. cogent

b. concise, brief, compact
c. essence, main point

If you’ve ever watched or played baseball, you know how important a base hit is to each batter. Before the game players spend as much time as possible taking their batting practice. During the game the batter concentrates on every pitch. In the same way, each day you are getting in your “batting practice,” and the weekly review is your chance to build up your “batting average.” Collect new words with the same concentration that baseball players collect base hits.

The Wild West

History tells us that, in a showdown in 1881, a notorious outlaw, Billy the Kid, was killed. At least that is the ①______ belief. The real Billy the Kid, William Bonney, is believed to have escaped and lived for many years in Texas. In fact, a man named Brushy Bill Roberts claimed to be the grown-up Billy the Kid.

When Roberts died in 1950, there was the ②______ question about his true identity. As a result, a computer was brought in to test whether there was anything other than a ③______ resemblance between the two men. A photo of the Kid and a photo of Roberts were compared on the computer.

In a ④______ report from the computer technician, the identity of Roberts was proved to be different from that of the real Billy the Kid. Thus, computer analysis allows us to ⑤______ the idea that Billy the Kid survived the famous gun duel.
WEEK 27 ♦ DAY 1

A MUSICAL WORLD

Music reached its pinnacle in the nineteenth century. Every leading nation produced its share of great composers. There was a bewildering array of national schools and musical styles as the once obscure musician came into his own. Music became a widespread and democratic art. The ardent music lover turned to Vienna as the music center at the beginning of the nineteenth century. However, Paris was not far behind, especially in the field of operatic music. As the century progressed, the Germans became paramount* in orchestral and symphonic music. The growth of German music can be said to have culminated with Ludwig van Beethoven.

A GIANT COMPOSER

Beethoven was able to free music from the traditions* that had tended to constrict it. He was a child prodigy who held an important musical post at the age of 14. He was a successful concert pianist, but when his health began to fail he turned to composing. Even though bereft of hearing at the age of 49, he did not falter in his work. Some of his later compositions reflect his sadness with his physical condition, but they also evince* an exultation about man and life.

A WORTHY SUCCESSOR

A successor to Beethoven was Johannes Brahms. Also a prodigy,* he was the object of vitriolic attacks by other composers because of the individuality of his work. They heaped invective upon him for the intensely emotional quality and Germanic style of his writings. However, it was impossible to besmirch his talents for long, and he was soon one of the most popular composers in Europe. He produced voluminous varieties of compositions. Today, in retrospect, his originality is appreciated, and he is placed among the top romantic composers.

Sample Sentences Complete the following sentences with the new words.

A DANGEROUS SPORT

Racing car drivers are vulnerable to dangers that other sportsmen seldom face. Drivers agree that controlling a car at top speeds on a winding course is a singularly awesome experience. There is the bedlam caused by the roaring motors that move the car from a standing start to 100 miles an hour in eight seconds. One is shaken by the cacophony of the brakes, larger than the wheels and producing during the course of a 350-mile race enough heat to warm an eight-room house through a hard winter. The driver needs to be on the alert to exploit any mistake by an opponent, and he must be constantly aware of the propinquity of sudden death.

All of this makes car racing one of the most demanding games of all.

How was your recall today? Did you spot vulnerable as a reintroduced word?

A SPORT FOR EVERYONE

Of the many highly popular sports in the United States, football must be rated around the top. This sport allows the speedy and lithe athlete to join with the slower and obese one in a team effort. The skills and strengths of many men are welded together so that one team may work as a unit to gain mastery over its opponent. The knowledgeable adherent of a team can follow action covering many parts of the playing field at the same time. He is in a state of bliss when his team executes a movement to perfection. However, there is no one more pathetic than the same fan when the opposition functions to equal perfection.

RAH! RAH! RAH!

The spectators at a football game play more than a superficial* role. A spirited cheer from the stands often gives the player on the field a reason to try even harder. Cheer leaders *exhort* the fans, who may be in a state of *apathy* because their team is losing, to spur on the team. In particularly close games between rivals of long standing, feelings begin to run high, and from time to time a *fracas* may break out in the stands. While the teams compete below, the fan who is a bit *inebriated* may seek out a personal *adversary*. On the whole the enthusiasm of the spectators is usually constricted* to cheering and shouting for their favorite teams.

Sample Sentences Complete the sentences with the new words.

THE 23-INCH FOOTBALL FIELD

The football fan who cannot attend a contest in person may watch any number of games on television. This has the great advantage of permitting an indolent fan to sit in the comfort of his living room and watch two teams play in the most inclement* weather. However, some of the spirit, the gusto, is missing when one watches a game on a small screen away from the actual scene of the contest. Also, the viewer is constantly exposed to a garrulous group of announcers who continue to chatter in an endless way throughout the afternoon. Should the game be a dull one, the announcers discuss the most banal bits of information. Even in the poorest game there is constant chatter involving one platitude after another about the laudable* performances of each and every player.

Sample Sentences Use the new words in the sentences.

1. He began to eat the food served at the sumptuous* feast with ________________.
2. Men believe that women’s conversation is filled with ________________ comments concerning clothing or food.
3. During the most sultry* days of summer, one often hears the ________________, “Is it hot enough for you?”
4. The ________________ person goes to great lengths to eschew* work.

Week 29 • Day 4

What’s on?
One day each week is set aside for college football, and another for the professional brand. Most fans enjoy both varieties. Nothing can put an avid* viewer into a pique more quickly than missing an important contest. It is the dilettante who eschews* the amateur variety and watches only the professional games. The atypical fan will watch only his home team play; however, enthusiasts will continue to view the most nondescript contests involving teams that have no connection with their own town or school. Some intrepid* fans have been known to watch high school games when that was all that was offered. Public interest in football grows each year, while interest in other sports may be on the wane.

Each Citizen’s Obligation

Of all the democracies in the world, the United States has the most lackluster record when it comes to citizen participation in elections. Every four years the experts try to analyze the reasons for voter ①_______. Often the eligible voter turnout at election time falls below 50%. This, after months of political campaigning, including televised debates, is a ②_______ situation.

No matter how hard the candidates woo the voters, the end results are often disappointing. Are the voters so ③_______ that they would rather stay home watching television than cast a ballot? Does the voter feel that the candidates are stating one ④_______ after another and is therefore turned off?

The right to vote is so precious that revolutions have taken place where it has been denied. The civil rights struggles of the past were sparked by those who had been denied this right. The greatest ⑤_______ of democracy in this country is said to be the failure of citizen participation in the election process.
IN DAYS GONE BY

The man who best described the now *extinct* life aboard a steamer on the Mississippi River is Mark Twain. Having actually worked aboard the river boats, his writing captures the tranquil* or turbulent* events of those days. In his book about life on the Mississippi, Twain recalls the *idyllic* times when man was not in such a great rush to get from one place to another. One chapter deals with the races conducted between the swiftest of the boats. When a race was set, the excitement would *galvanize* activity along the river. Politics and the weather were forgotten, and people talked with *gusto* only of the coming race. The two steamers “stripped” and got ready; every *encumbrance* that might slow the passage was removed. Captains went to extremes to lighten their boats. Twain writes of one captain who scraped the paint from the *gaudy* figure that hung between the chimneys of his steamer.

WEEK 30 • DAY 2

THE JOHN J. ROE

Mark Twain’s boat was so slow no other steamer would condescend to race with it. With the utmost candor, Twain comments that his boat moved at such a pathetic pace, they used to forget in what year it was they left port. Nothing would mortify Twain more than the fact that ferryboats, waiting to cross the river, would lose valuable trips because their passengers grew senile and died waiting for his boat, the John J. Roe, to pass. Mark Twain wrote in a jocose manner about the races this steamer had with islands and rafts. With quiet humor he continued to malign the riverboat, but his book is replete with love for this sort of life.

THE RIVERBOAT PILOT

The riverboat pilot was a man considered omnipotent by all. Mark Twain once held that high position. He writes that he felt at the zenith of his life at that time. Starting out as a fledgling pilot’s apprentice, he could not abjure dreams of the time he would become, “the only unfettered and entirely independent human being that lived in the earth.”

Kings, parliaments, and newspaper editors, Twain comments, are hampered and restricted. The river pilot issued peremptory commands as absolute monarch. The captain was powerless to interfere. Even though the pilot was much younger than the captain, and the steamer seemed to be in imminent danger, the older man was helpless. The captain had to behave impeccably,* for any criticism of the pilot would establish a pernicious* precedent that would have undermined the pilot’s limitless authority.

WEEK 30 ♦ DAY 4

THE DOUBLE CROSS

Many incidents that took place aboard his ship are re-told by Twain. One has to do with a wealthy cattle man who was approached by three gamblers. The cattle farmer had let it be known that he had a great deal of money, and the gamblers were trying to wheedle him into a card game. He protested that he knew nothing about cards. His rustic appearance confirmed that fact. On the last night before landing the three gamblers got him drunk. When the first hand was dealt, a jubilant expression came over his face. The betting became furious. All of the proper decorum was put aside, and ten thousand dollars soon lay on the table. With the last wager one of the gamblers showed a hand of four kings. His partner was to have dealt the sucker a hand of four queens. At this point the victim, the charlatan, removed the veneer* of respectability, and showed a hand of four aces! One of the three professional gamblers was a clandestine* confederate of the “rich cattle farmer.” They had been planning this duplicity* for many weeks.

The Environmental Society

A great deal of controversy surrounds the efforts of environmentalists to protect rare species of animals and birds from becoming ⑥ ______. In order to save these creatures from destruction stemming from a loss of forests or water pollution, environmentalists try to ⑦ ______ large numbers of people to pressure politicians into passing conservation legislation. Often, however, these proposed ⑧ ______ laws are thought to be a burden placed upon business, resulting in a loss of employment.

In the 21st century, the energy and food requirements of an increasing population are at odds with those who would set aside land for birds or animals. There is a great temptation to ⑨ ______ the motives of environmental advocates. It will take people of good will and ⑩ ______ to resolve the many difficulties that lie ahead.
WEEK 31 ♦ DAY 1

CHOOSE SAGELY*

Today, the paramount* influence in the forming of public opinion is propaganda. It is not a heresy* to our democratic beliefs to state that pressure groups play an important part in our lives. Propaganda makes one vulnerable* to the influences of others. The prudent person will choose between cogent* and specious propaganda efforts. While propaganda has the ostensible* purpose of informing the public, the most fervid* propagandists use methods that must be examined by the thoughtful citizen. The ability to distinguish the spurious* from the true facts requires more than a perfunctory* examination of prevalent* propaganda efforts.

Sample Sentences Use care. The words have many meanings.

1. His ______________ appeal for action threw his adherents* into a frenzy*.
2. He accused the leader of the opposition of political ______________, and the mob was exorted* to burn his effigy*.
3. In the bedlam* that followed it was not ______________ to appear too apathetic*.
4. While the ______________ enemy was the opposition leader, the main purpose of this rash* behavior was the eradication* of all opponents.
5. In the conflagration* that followed, no one questioned whether the original charge had been ______________.

A FREE SOCIETY

In a free society it is intrinsic* that individuals and groups have the inherent* right to propagate ideas and try to win converts. We do not look upon an idea different from ours as an anomaly that should be precluded*. Nor do we permit only innocuous or congenial* beliefs and forbid those that we believe are dubious* or spurious*. In a country of competing pressures we are accosted* by a surfeit of propaganda that tends to overwhelm us. Thus, we live in a milieu of ubiquitous* bombardment from countless, and often unrecognized, propagandists.

Sample Sentences Use the new words in these sentences.

1. I must inveigh* against your attempt to ______________ the belief that your political system will result in a panacea* for all problems.
2. It is incongruous* to find an abstemious* person in a _____________ of avarice* and affluence*.
3. Siamese twins are considered a birth ________________.
4. There appears to be no such thing as an ______________ heresy*.
5. When can we expect a respite* from the _______________ of TV commercials?

Definitions Match the new words with their definitions.

6. propagate
   a. excess, superabundance
7. anomaly
   b. environment, setting
8. innocuous
   c. irregularity, abnormality
9. surfeit
   d. produce, multiply, spread
10. milieu  e. harmless, mild, innocent

**Today’s Idiom**

*without rhyme or reason*—making no sense

*Without rhyme or reason* the pennant-winning baseball team decided to jettison* its manager.
WHO LISTENS?

As the quantity of propaganda becomes greater, ideas are presented in more strident tones in order to overcome the increased competition. Those who are the targets of the propaganda find it more difficult to discern* between or analyze the new and expanded pressures. The concomitant situation that develops with the stepped-up propaganda is one in which the individual retreats into a state of lassitude. He has an aversion* to all attempts to influence him. So we can see the intrinsic* weakness inherent* in an increased level of propaganda. It has the deleterious result of reducing its efficacy upon the individuals or groups who were its objective.

Sample Sentences Use the new words in these sentences.

1. There are many _______________ dangers to obesity.*
2. Her _______________ voice added to the bedlam.*
3. After the frenzy* that accompanied the burning of the effigy,* they were all acutely* aware of a feeling of _______________ .
4. The gist* of the report was that smoking will have a _______________ effect on health.
5. The _______________ of new drugs cannot be determined without a plethora* of evidence.

**Today’s Idiom**

*swan song*—final or last (swans are said to sing before they die)

The ex-champion said that if he lost this fight it would be his *swan song.*
THE PEOPLE DECIDE

The place of propaganda in a milieu* that is not free differs from its place in an open society. In a dictatorship there is no competing propaganda. Those who dissent from the official line may do so only in a clandestine* manner. Where there is no open ferment of ideas, the possibility of discerning* the true from the spurious* is attenuated. In a democracy, the inevitable* arbiter of what propaganda is to be permitted is the people. It is incumbent upon each citizen to choose between competing propagandas while remaining cognizant* of the value for a democracy in the existence of all points of view.

Sample Sentences Use the new words in these sentences.

1. It is _________________ on us to be zealous* in combating the deleterious* effects of drugs.
2. With each generation it becomes the vogue* for the youth to be in a state of ________________.
3. The gist* of his ominous* suggestion was that we ________________ from the majority opinion.
4. The strength of her appeal was ________________ by the flamboyant* embellishments* for which many had a strong aversion.*
5. The Supreme Court is our ultimate* ________________ of legality.

Definitions Always be cognizant* of the fact that words are used in the paragraphs and sentences with only one meaning. They often have many others. Look up the word incumbent for a good example.

Cross My Palm with Silver

People are fascinated by those who say they can predict the future. Fortune tellers continue to attract gullible customers, and horoscopes are examined daily to see if there is something ①_______ to worry about in the day ahead. One specialist who seems to have found a way to predict something of our future is the palm reader. It is her belief that a long “life line” in the hand means the customer will enjoy longevity.

While this appears to be a ②_______ way to predict long life, a study done in England measured “life lines” of 100 corpses and came up with ③_______ support for the claim: the length of life matched the length of line. The longer the line, the older the person lived to be.

However, there are scientists who ④_______ with believers in this apparent connection. The “life line” of older people is longer only because the hand becomes more wrinkled with age. Length of line is a ⑤_______ of length of life, not the reverse, say scientists.

*ivory tower*—isolated from life; not in touch with life’s problems

Many artists have been said to be living in an *ivory tower.*
EVERYONE IS TALKING

Can anyone under the age of 20 remember a time when the dial telephone was the only method of voice communication over long distances? What a bizarre concept this must seem for today’s youth. It has become an antiquated* cultural form of personal contact. The instrument for the modern communicator is the cell phone, which has usurped the wire-connected stationary model. With cell phone companies competing for customers, they eschew* offering a paltry number of minutes of talking time. The cell phone user can take advantage of a plethora* of special deals and carry on with significant or trivial conversations for seemingly endless time, and in almost any location. Often, these personal talks are held in the most public places, and those within hearing find it difficult to condone the inconvenience caused by the indiscriminate* use of this ubiquitous* instrument.

Don’t look back at the “new words.” Did you spot bizarre as a reintroduced word?

Sample Sentences (note the similarity of trivial and paltry)

1. Most of us scoff* at and belittle* ________________ behavior.
2. They exacerbated* a ________________ difference of opinion into a prodigious* conflict.
3. It is during a period of ferment* that a dictator can ________________ power.
4. Do you expect me to ________________ that reprehensible* act with such celerity*?
5. The most ________________ defects may have a deleterious* effect upon the efficacy* of that new process.

THE FUTURE IS HERE

We have ardently* taken to the cell phone as a replacement for the venerable dial-up model. The most striking feature of the cell phone is the variety of uses to which it can be put. The dial-up phone is restricted to the menial task of mere conversation. For the garrulous* person who isn’t restricted to one place, the mobile cell phone has a myriad* of uses. Should one be in an area that requires silence, there is an ability to utilize the succinct text messaging feature. Should one come upon an ambiguous event that one wishes to keep, one may photograph it or make it into a film for further study. Do not preclude* from the list of uses the access to your computer, music, and weather reports. One can hardly imagine an extraneous technical marvel that will not embellish* the cell phone in the future.

WEEK 32 ⋆ DAY 4

IT’S HAPPENING NOW

The flood of new technology makes each modern marvel appear archaic within the briefest time period. An assiduous* examination of today’s communication methods will make clear how quickly a rabid purchaser of the newest product will want to emulate friends and buy the next one. The cell phone that can track down the location of a user, or the music-downloading pod that has a potential* to record almost countless songs are being replaced with more powerful and exciting products. It would not be facetious to claim that scientists will persevere* in devising ways for us to contact each other by voice, photographs, and print messages that give us access* to a more salubrious social network.

Sample Sentences Use the new words in these sentences.

1. Some maintain that the ascetic* leads a __________________ life.

**A Formidable Opponent**

One of the most interesting tests of a computer’s ability to “think” occurred in 1992. The world’s chess champion, a man of [blank] mental ability in this sport, was challenged to compete against the most powerful computer programmed to play chess. The question was, could a machine [blank] a human’s place as the best chess player in the world?

The match took place before hundreds of chess enthusiasts and was recorded on film. While the computer lacked the champion’s experience and emotional capacity, it worked with such [blank] that it could search ahead for many thousands of choices, well beyond what any human could envision. In fact, the computer had already defeated many [blank] chess masters in preparation for the contest.

The result of this test match was [blank] as far as human self-esteem was concerned. The champion won fairly easily. However, there is almost total agreement that it is only a matter of time before we have an electronic chess champion, one incapable of making a blunder. At that point it will be checkmate for all of us.

Making Plans

Robert had arrived in New York a week earlier. He had begun by asking discreet questions of Evelyn’s former landlord. There was no need to foment opposition at the very beginning. The landlord was recondite,* and all Robert had been able to glean from the cryptic* replies was that Evelyn had moved to a residence that catered to single women. Robert was in a hapless* situation; in this immense city his quarry could be hiding in one of dozens of such places. This would obviate* the possibility of his dashing from one place to another in an impetuous* manner. His search, while it had to be concluded with celerity,* could not be carried out in such slovenly fashion. He required a succinct* and meticulous* plan.

Sample Sentences Use the new words in these sentences.

A NEWSPAPER AD

On the premise* that Evelyn knew she was being sought, Robert's first step was to abjure fruitless* searching and place an ad in the leading morning newspaper. He would importune* in a most careful way for her return. The ad read, “Evelyn. Come out of hiding. I do not reproach you for your actions. I expect no penitent confession. There is nothing ambiguous* about my offer. Please contact Robert.” He added a box number for a reply. When Robert went to the paper the next morning, he felt sanguine* about the chances of locating her. His evanescent* concerns disappeared; there was a letter for him, and with tremulous* fingers he tore it open. It contained one sentence, and it was tantamount* to a challenge; “If you really care about me, you will find me by midnight, Friday, Evelyn.”

Sample Sentences Use the new words in these sentences.

AT THE BALLET

Evelyn was an anomaly*: she had a propensity for folk music and rock and roll dancing, and, at the same time, she was an avid* fan of classical ballet. At one time she had been a fledgling* ballet dancer. Robert headed for a theater where a venerable* ballet company was performing. He knew he had to be wary so that Evelyn might not see him first. It was Tuesday evening; two days gone with so little to show. Only three more remaining before the deadline set by Evelyn. He tried hard to allay the sudden fear that came over him that he might not locate her. Nothing would deter him from succeeding! And so, although he was far from a connoisseur of the dance, he was standing among the throng* in the lobby, hoping it would be a propitious* evening for him.

Good Enough to Eat?

There seems to be universal agreement that exposure to the ultraviolet light from the sun is deleterious to one’s health. Also, except for tobacco industry spokesmen, there is no dispute about the damage done to us from cigarette smoke. What is shocking is the fact that almost everything we once regarded as either beneficial, or harmless, soon gets challenged by scientists. We are urged to ①_______ foods that have high fat content. There go butter and cheese. Even milk has now been added to the list of foods of which we must be ②_______.

Whatever diet we are on, we cannot become ③_______ about its nutritional value. We are left, ultimately, with the ④_______ thought that, sooner or later, almost everything we eat or drink may be found to jeopardize our health.

Given that there are many obstacles to maintaining good health, would it be wise to embrace every new laboratory report in order to ⑤_______ information? Let’s not discard old, proven, sensible food habits. Also, there is always the possibility that ice cream sundaes will be found to cure baldness, and that chocolate chip cookies will eliminate our cholesterol problems.
ANOTHER PLAN

Robert was far from tranquil* as he waited in the lobby for almost an hour after the performance had begun. Disgruntled,* he quit the site of his vigil. He had to face the fact that he was making no tangible* progress. Tomorrow he would telephone several women’s residences. It was a cumbersome way of going about the hunt, but it was all that he could think of at the moment. He would interrogate the desk clerks, and perhaps he might uncover a pertinent* clue to Evelyn’s whereabouts. If he could only get someone to divulge her hiding place! **Women in the Ring**

What sport requires the timing of tennis, the energy of aerobics, the stamina of cross-country running, and the physical contact of football? The answer is: boxing. And now that seemingly male spectacle is attracting women. What was once viewed as brutality has been transformed in gymnasiums across the country into the latest form of workout, weight reduction, and energy stimulator.

To suggest that women should not expose themselves to the sharp jabs and powerful uppercuts of boxing because they are the “weaker” sex is . Properly trained by experts, in good shape from punching bags and jumping rope, women can be as in the ring as men.

With women jockeys, race car drivers, hockey goalies, and basketball players, it would require a man with prejudice, if not sheer ignorance, to argue that boxing is solely a man’s sport. Anyone who is with the status of liberated women need not be surprised by their entry into the ring.

**WEEK 35 ♦ DAY 1**

**A MODERN AESOP**

The telling of a story in simple terms that has an inherently* important message is a venerable* art form. The *parable* may be found teaching a moral lesson in the Bible. Aesop is an incontrovertible* master of the fable. This story form is far from antiquated* as shown by the *whimsical* approach to life taken by the modern Aesop, James Thurber. His stories *lampoon* the strange behavior of his fellow men. Thurber seems unable to *countenance* the ideas that permeate* our society regarding the rules by which we should live. Least of all is he able to accept the *sanctimonious* notion that some people promulgate* that good always wins out against evil. Thurber’s stories often take an exactly opposite point of view.

**Sample Sentences** Note that some words do not have a one word definition. Frequently, several words, or an entire sentence, is required.

1. Jonathan Swift was never reticent* to ______________ the egotist* in order to bring him down with alacrity.*
2. What one person finds ______________ , the other may find asinine.*
3. The expression, “Sour grapes,*” is the gist* of a famous ______________ about a fox who couldn’t get what he wanted.
4. We should eschew* our ______________ façade;* away with pretext!* 
5. If we want to live in a salubrious* milieu,* we can not ______________ the noisome* fumes that are deleterious* to health.

**Definitions** Note the distinction between *countenance* as a noun and as a verb.
6. parable  a. humorous, witty
7. whimsical  b. hypocritically religious
8. lampoon (v.)  c. tolerate,* approve
9. countenance (v.)  d. a moralistic story
10. sanctimonious  e. ridicule

**Today’s Idiom**

to pull up stakes— to quit a place

He could no longer rule the roost* or get the lion’s share,* so he pulled up stakes and moved on.
MODERNIZING A PARABLE*

Thurber punctures in an incisive* way the platitudes* that come from stories handed down through the generations. These old saws are accepted by everyone. One such tale is about a tortoise who had read in an ancient book that a tortoise had beaten a hare in a race. The sage* old tortoise construed* this story to mean that he could outrun a hare. With equanimity he hunted for a hare and soon found one. “Do you have the effrontery to challenge me?” asked the incredulous* hare. “You are a nonentity,” he scoffed* at the tortoise. A course of fifty feet was set out. The other animals gathered around the site*. At the sound of the gun they were off. When the hare crossed the finish line, the flabbergasted tortoise had gone approximately eight and three-quarter inches. The moral Thurber draws from this debacle for the tortoise: A new broom may sweep clean, but never trust an old saw.

Which of the five “new words” have you seen before? Answer with equanimity.

**THINGS HAVE CHANGED**

Thurber modernizes an old story that everyone has read or heard. It has to do with a nefarious* wolf who kept a vigil* in an ominous* forest until a little girl came along carrying a basket of food for her grandmother. With alacrity,* this vivacious youngster told the wolf the address to which she was going. Hungry and gaunt the wolf rushed to the house. When the girl arrived and entered, she saw someone in bed wearing a nightcap and a nightgown. While the figure was dressed like her grandmother, the little girl surmised* with only a perfunctory* glance that it didn’t have the old lady’s mien. She approached and became cognizant* of the hirsute face of the wolf. She drew a revolver from her purse and shot the interloper* dead. Thurber arrives at a moral for this story that anyone would find difficult to refute: It is not so easy to fool little girls nowadays as it used to be.

**Sample Sentences** Use the new words in these sentences.

Since you’re from Missouri,* I’ll *leave no stone unturned* to convince you.
ANOTHER SURPRISE

Thurber’s stories are written in a jocose* manner, but they contain enough serious matter to make one pensive. He tells of some builders who left a pane of glass standing upright in a field near a house they were constructing. A goldfinch flew across the field, struck the glass and was knocked inert.* He rushed back and divulged* to his friends that the air had crystallized. The other birds derided* him, said he had become irrational,* and gave a number of reasons for the accident. The only bird who believed the goldfinch was the swallow. The goldfinch challenged the large birds to follow the same path he had flown. This challenge served to whet their interest, and they agreed with gusto.* Only the swallow abjured.* The large birds flew together and struck the glass; they were knocked into a stupor. This caused the astute* swallow to wince with pain. Thurber drew a moral that is the antithesis* of the cliché we all accept: He who hesitates is sometimes saved.

Beam Me Up, Scotty

In 1966 a television program appeared that quickly established itself as the most successful science fiction series, moved on to become a series of popular films, and continues in reruns to be seen somewhere in this country every night of the year. This original series, Star Trek, became so popular that there are huge fan clubs across the country and the stars of the original series are mobbed when they make personal appearances.

What makes this form of science fiction so popular? Some may say that each story of the future is a ①______ showing us our own world through a presentation of other worlds. There are those who would ②______ this analysis and argue that it is the odd characters, the ③______ aliens, who attract us. We watch with ④______ as worlds battle, knowing it will turn out well in the end.

After many years and many TV episodes and movies, “Star Trek” and its successors continue to ⑤______ our appetite and bring excitement to our screens. As long as space remains an almost total mystery, the unexplained will capture our imaginations.
A LADY NOVELIST

The nineteenth century saw the woman novelist attain the same prestige* as men. England was prolific* in producing women writers. One of the foremost in this genre was Charlotte Brontë. In *Jane Eyre* she presented a candid portrait of a woman caught up in a clandestine* affair with a married man. Miss Bronte’s readers were engrossed* in this story. She took this unsavory subject and presented it in a way that did not degrade the relationship. She showed that true passion can be healthy. Miss Brontë did not disparage* Jane’s feelings or besmirch* her character. The author was generous in her verdict. The affair was considered merely a venial sin because Jane was never false in her feelings or her actions.

We are all aware that 1992 was the year during which there were 1______ reminders that it marked the 500th anniversary of Columbus’ arrival in this part of the hemisphere. Along with the celebrations and historical reenactments, there was controversy regarding the lives of those who had been here for many centuries before that fateful event.

Historical research shows that it would be extremely 2______ to believe that “civilization” began on this continent with Columbus’ arrival. The Native American tribes had formed nations and had come together in an organization known as the Five Nations. They had regulations for governance that were the 3______ of self-rule and that became the models on which our Constitution was partly based.

It was to remove the 4______ portrayal of the Native American as savage and wild that historians adopted 1992 as the year to 5______ them in their true light as members of civilizations worthy of study and respect.

**THE MIND’S SECRETS**

The study of the human mind and behavior has had many prominent practitioners, but no one is more revered* than Sigmund Freud. An Austrian physician, he is said to be the father of psychoanalysis. He taught that man has a subconscious mind in which he keeps repugnant* memories that come to the surface surreptitiously* and motivate behavior. Man often tries to rationalize his actions, when, in reality, they are really the result of suppressed memories coming to the surface. Freud’s approach to the disturbed person was to attempt therapy by examining the dreams that make cognizant* what the cause of the illness might be. Only with the airing of deleterious*, buried emotions can the person move from the nascent stage to that of full health. Freud was considered an iconoclast* in the field of psychology when his ideas first appeared at the beginning of the twentieth century.

**Amateur Psychologists**

The ideas of Freudian psychology have become part of our everyday life. Our language is replete* with clichés* that have their origin in Freud’s writings. There is a surfeit* of amateur psychologists who, with celerity,* analyze an individual’s problems from the slightest evidence. Despite their dubious* education and training in this field, they discuss symptoms and cures on a most erudite fashion. Should a person express a fear of heights, this *phobia is examined; events from childhood are considered *germane to the problem. Is it possible he or she was dropped as an infant? **Make My Ostrich Burger Well Done**

Just about 100 years ago, there arose an industry in the state of Arizona that seems very odd to us today. We know of cattle ranches and sheep ranches, but would you believe . . . ostrich ranches? This ① ______ business became popular as women found ostrich feathers a ② ______ addition to their wardrobes.

Ostriches are easy to raise. They eat and drink less than cattle, and their eggs are large enough to feed ten people! During the ③ ______ days of ostrich ranching, feathers were sold for as much as $300 a pound, so it is easy to see why that business was so attractive.

However, women’s fashions changed after World War I, and the market for ostrich plumes fell. Growers had to ④ ______ a shrinking market. The price tumbled to about $10 for a bird. As ostrich feathers became ⑤ ______ in the fashion world, ostrich ranching came to an end.

Interestingly enough, ostrich ranchers may be coming back into vogue because nutritionists tell us that ostrich meat is low in cholesterol. We may not go wild over the feathers, but pass the lean meat, please. Hold the mayo, too.
THE ENIGMA* OF FASHION

Of all the pressures young people face, the most pernicious* is that of fashion. By this is meant the current vogue* in dress. The teenagers, who are so glib when they speak of “individuality,” are turned into a homogeneous mass by the latest craze in fashion. How can youngsters who vehemently* resist advice from the older generation become so malleable in the hands of those who “make” fashion? Perhaps the sudden shifts in fashion occur fortuitously*. Or is there some group who, through legerdemain, switches styles and customs on us right before our eyes? Today’s teenagers seem to be quite gullible* when it comes to embracing the latest trend in fashions. But then, they have their elders as sage* examples to follow.

THE ECONOMICS OF FASHION

In dress, the fashion appears to be “set” by a few foreign designers and a handful of affluent* individuals who purchase these designs. The fashion industry is cognizant* of the fact that fashions must change rapidly and often or their economy would become stagnant. For this industry, it would prove fatal if it were not vigilant* and prepared well in advance for a new fashion trend.* As the old fashion becomes passé and a new fashion seems to be in the making, the garment manufacturers cannot afford to procrastinate. They rush large sums of money into production for a mass market. Having invested heavily, the manufacturers do everything possible to influence and motivate* the purchasers. Through every facet of publicity and advertising the industry exploits* the natural desire for people to be au courant* with the latest fashions.

**WHAT NEXT?**

Once the fashion industry has been able to *foist* a new style on the teenager, the older generation tends to *stigmatize* it as some form of rebellion. What is often ignored is that the young consumers *capitulate* to what is originated* by someone outside of their group. The feelings of individuality and *audacity* that the teenager gets from a new style of dress result from the propensity* of their elders to disparage* them. The actual situation is that the clothing fashions soon become accepted by all; there is nothing upsetting or revolutionary about them. While people are becoming complacent* about the “new,” the clothing industry is busy planning how to *tantalize* the teenager with next year’s “fashion.” This arbitrary* decision is guaranteed to *foment* consternation* among adults once again in the following year.

TV—The Octopus

Is there anyone you know who can remember a time when there was no television? Perhaps a grandparent, but no one much younger is able to do so. At the beginning, only a handful of stations existed. Early programs imitated each other and tended to be ⑥________. Some time later, there was the cable TV expansion and greater variety was available. The developing ⑦________ was for ever-larger numbers of programs dealing with information as well as entertainment.

The TV industry, never ⑧________ when it comes to expanding viewer interests, brought even more channels to the air, broadcasting 24 hours every day of the week. The objective was to ⑨________ special groups with programs directed to special tastes and interests. Soon channels devoted to games, to how to fix or make things, to romance dramas, to cartoons, etc., sprang into existence. It appears that every ⑩________ of a viewer’s interest is being addressed. As more and more channels come on the air, as the result of new technology, the variety is expanding beyond anything imagined by those who can recall the beginnings of this magical medium.
WEEK 39 ♦ DAY 1

RULE, BRITANNIA
An unforgettable saga of World War II has to do with the small French coastal town of Dunkirk. There, in 1940, thousands of British troops made a belated escape from the awesome power of the German army and air force. They were removed by an array of private boats, from huge yachts to decrepit fishing boats. At their own volition, the skippers came close to the shore, while German planes bombed implacably. They remained imperturbable under heavy fire. When their vessels were loaded, they dashed back to England. Once unloaded, they did not vacillate, but returned with equanimity to their vigil in the danger zone. The British proved once again that they are paragons of comradeship in times of jeopardy.

A FAMOUS MUTINY

One of the most repugnant\* names in popular legend is that of Captain William Bligh. He was the captain of the H.M.S. Bounty in 1789, and the mutiny that erupted* aboard that ship was the basis for a film in which Charles Laughton portrayed Bligh as an awesome\* bully and an unmitigated* villain. He would flay both the body and the spirit of anyone who crossed him. The crew developed such an aversion* to Bligh’s mortifying actions and demeanor\* that, led by Fletcher Christian, they set the captain and 17 shipmates off in a lifeboat in the South Pacific. The ship continued to the Pitcairn Islands where the crew remained to live with the islanders. Laughton’s delineation\* of Bligh remains as the image we have of him. Only recently has any attempt been made to vindicate\* Captain Bligh and to remove the heinous\* reputation that permeates* history.

Recently, there has been an attempt to improve Captain Bligh’s tainted* image. Historians maintain that there was no **turpitude** in Bligh’s actions aboard the H.M.S. *Bounty*. Perhaps he was imprudent* in failing to keep his temper under control. While an **infraction** aboard ship was quickly criticized, Bligh never carried out those *callous* actions the movie dramatized in order to depict* an evil man, say his defenders. After the mutiny, Captain Bligh astutely* navigated the lifeboat with the other 17 men for over 3,000 miles to safety. Psst . . . Need World Series Tickets?

Think about this for a moment. Is there anything wrong in buying something for one dollar and reselling it for two dollars? Naturally, you would be correct if you saw nothing amiss with this transaction; it’s the way a capitalist economy works. But, if you bought a ticket to a rock concert or baseball game for ten dollars and sold it for twenty, you would be committing an ⑥_______ of the law. You might ask, “What’s so ⑦_______ about this?” The answer is that you would be guilty of the practice known as “scalping.” Does an individual who offers a scarce ticket at a price above the original price deserve the ⑧_______ connected with the word “scalping”?

These hard-working and risk-taking individuals see themselves as go-betweens in a world where people are willing to spend additional money for a popular event. However, law enforcement officials remain ⑨_______ in the face of all reason as they arrest and fine these enterprising salesmen. Those ⑩_______ believers in punishing law-breakers find nothing wrong with trying to halt the scalping of tickets. For others, it is a way of doing business that they claim hurts no one and is in keeping with a profit-driven economy.

A POLITICAL SHOW

The 2012 elections offered another example of politics as show business. Most politicians have prepared speeches dealing with the prevalent\* topics of the day. They can maintain a fervid* flow of rhetoric for hours at a time. In each locality where he is to appear, the advance work is prepared by a clique\* of trustworthy aides. In preparation for the show, they have dispersed* leaflets, put up posters, and sent out cars and trucks with loudspeakers to extol the erudite* qualities of their candidate. Soon, the crowd gathers. Loyal party workers come forward to shake the hand of their mentor. Now, with the facile solutions to complex problems carefully memorized, the show is ready to begin. One moment facetious,* the next moment profound,* the candidate works to convince the incredulous* among the voters.

SEEING IS LEARNING

While we are all cognizant* of the importance of words to create certain impressions, gesture is relegated* to a much lesser role. Gestures are an important concomitant* to even the most vapid* speech, enhancing it and giving the hearer something to look at while he listens. The value of seeing at the same time as listening was shown when a class at a university, unwieldy* because of its large size, was split up. One group was put into a room in proximity* to good loudspeakers. Every nuance* of the lecturer’s voice could be heard clearly. Because they had no person on whom to place their attention, they soon took on the appearance of extreme lassitude; most students became lethargic* and rested their heads on their desks. The separation of visual and aural communication tended to vitiate* the learning process. The listening group received grades lower than those received by those who could look at as well as hear the instructor.

*Once more your keen eye and memory were being tested. Did you recognize lassitude as being from an earlier lesson?

**THE HAMMY OLD DAYS**

Actors depend upon their ability to gesticulate* almost as much as upon speech to obtain their desired histrionic* effects. With them, gesture serves much more than merely to augment speech. When their communication is by gesture alone, it is called pantomime. In the early silent motion picture period, gestures were flamboyant.* To show that he was distraught* about the danger in which the heroine had been placed, the hero would go through the most fatuous actions. He would stagger, beat his breast, tear his hair, and contort his face into the most doleful* appearance. There weren’t many simple or restrained gestures in his repertoire. The heroine, to indicate her love, would fling her arms wide and ardently* jump into her sweetheart’s arms. It was only much later that actors became skilled enough to communicate with the audience through discreet* gestures and almost imperceptible changes in facial expression that could transmit nuances* of emotion.

Review

If there’s one thing a politician must know how to do, it is to use words effectively. He must weigh carefully each and every utterance. He must also select the proper word for the audience he is addressing. You may never run for office, but it would be comforting to know you were ready for it—vocabulary-wise!

In Thailand, Mum’s the Word

In this country we take for granted our right to speak out about our elected officials in any way we wish, without fear of arrest or imprisonment. The most disrespectful language is allowed. While some may take ① at an insult against the president, our Constitution protects that right.

Now, consider the country of Thailand. That land in southeastern Asia is ruled by a king. What happens to an individual who fails to ② this monarch? There is a case of a person who joked that if he were king he could sleep late every day and drink wine in the afternoon. For this somewhat ③ remark, he was sent to prison for seven years. Or take the story of the woman who was hanging up the king’s photograph. When the police asked her what she was doing, she replied, “I’m nailing it up there on my wall.” She said “it” instead of “the king’s photograph” and for this ④ alleged insult, she also was sent away for seven years.

While some U.S. citizens may ⑤ our leaders, in Thailand the less said the better.
QUEEN OF THE SUPERMARKET

The American housewife is queen of all she surveys in the supermarket. She decides what items shall be purchased. Grocery manufacturers are well aware of her power to make one product a success and another a failure. They spend huge sums developing new products with which to curry her favor. Fearful that a successful product will soon begin to pall, the manufacturers, without cessation,* come out with “new and improved” versions to whet* her appetite. Sometimes it is only a box or package that has been changed—perhaps a colorful photo of a succulent meal on a TV dinner box. In the larger supermarkets the housewife is faced with a satiety of merchandise, particularly in the copiously* stocked laundry detergent section. While there may be almost no intrinsic difference among the many brands, advertising and packaging serves to importune* her to buy one rather than another.

Did you spot it? The “new word” you’ve seen before? It’s intrinsic.

WEEK 41 ♦ DAY 2

IT’S WHAT’S OUTSIDE THAT COUNTS

Packaging of grocery items is a facet* of advertising that is too little appreciated by consumers. Walking up and down the aisles of a supermarket, one seldom stops to analyze the individual package in the potpourri of items on the shelves. The manufacturer had to glean* and test many different designs before he accepted the one you see in the array* before you. Before he will sanction the use of a particular can, box, or bottle, he must know many things about its efficacy.* He wants to know if the colors attract: a white box may denote cleanliness, a red one, strength. There may be a photo or a drawing that will allude to the product’s use or special qualities. A lackluster* package may be fatal.* Next, the size and shape are important elements. The housewife may want a small package for easy storing, but a larger package may suggest economy. A round bottle may look attractive, but a square one is easier to stack. These are some of the insidious aspects of packaging, the main purpose of which is to attract your attention as you peruse* the crowded supermarket shelves.

Sample Sentences Use the new words in these sentences.

1. I cannot ________________ your lax* attitude towards the imminent* threat of a conflagration.*

“TRIED AND TRUE”

Few question the propriety of the current haste on the part of manufacturers to bring out “new and improved” products at the prevalent* rate. At one time, in the dim, distant past before the advent of television, it was the vogue* for products to be advertised on the merits of their “tried and true” qualities. Few advertisers were impious enough to jettison* any part of a product that had been accepted by the public. Year after year, the local grocery store owner would proffer the same box of cereal, the same house cleaner. The acceptance was of the time-tested product, and it appeared almost unconscionable* for the manufacturer to change his merchandise. Today’s spate of transient* products would have been considered an anomaly* in those days.

WHAT’S IN A NAME?

Supermarkets now carry their own products to compete with the national brands. These “house” brands are not in a felicitous* position because they cannot be advertised widely. Supermarkets overcome this encumbrance* by making these brands less expensive. Many people believe the shibboleth,* “You get what you pay for,” and they purchase items on the premise* that quality varies as the price does. Are the claims made by nationally advertised brands bogus? How can one bread company substantiate its nutritive superiority over another? As there is no incontrovertible* evidence, the more expensive bread (or coffee, etc.) must compensate* by increased advertising. They make inordinate* claims, using those raucous techniques proven so successful in convincing the frugal* consumer to switch to a more costly brand.

Age Discrimination

One of the most ①_______ forms of discrimination is that based upon age. We have become aware through publicity and education that bias and discrimination based upon race, color, creed, and sex are not to be accepted. Through laws passed by the Congress of the United States and by individual states, we agree that using these criteria for hiring, promoting, or firing in the workplace is a ②_______ and undemocratic excuse. Many lawsuits have supported this most basic right to “life, liberty and the pursuit of happiness” protected by our Constitution.

Why is it, then, that so few question the ③_______ of preventing those viewed as “too old” from getting positions, or, if already on the job, promotions? Advanced age also leads to the firing of such employees and their replacement with younger applicants. Is there something ④_______ in youth that suggests that older workers cannot do the job as well? Until age discrimination goes the way of all of the other forms of prejudice, we may continue to ⑤_______ the reasoning that “younger is better.”
YOU CAN’T HELP BUT WATCH

The consumer is in a quandary about making a felicitous* selection among the array* of products. The advertisers must influence the malleable* consumer, and often they do it in the most callous* ways. Television offers many tangible* advantages for reaching the consumer. As a result, the consumer is inundated* by commercials. The advertiser knows that a television commercial is the most expedient* way to reach large numbers of people. The cost for each commercial film is prodigious*, but because the audience is so large, the cost per viewer is negligible*. Each commercial is prepared in the most meticulous* way in order to catch the attention of even the most blasé* viewer and hold it until the message is through.

The reintroduced “new word” should have stood out immediately. Did it? It’s callous, of course.

**Today’s Idiom**

*worth one’s weight in gold*—extremely valuable, very useful

The coach said the new star center was *worth his weight in gold.*
WEEK 42 ♦ DAY 3

GOING TO THE SOURCE
The wide diversity* of reasons people have for buying one product rather than another are investigated by the advertising people in order to prepare efficacious* commercials. They do not have the slightest qualm about questioning the consumer about personal things in her own domicile.* The consumer is requested not to expurgate* her answers. Generally, people are not reticent* and do not begrudge giving the time and effort. The questions delve rather deeply, and what the artless responses divulge* will help the advertiser decide what to put into his next commercial. After a large number of interviews, the copious* results make it feasible* to prognosticate* how well the commercial will do. The interviewer usually offers no gratuity to the person who has helped, but often a sample of the product is proffered* as thanks.

Sample Sentences Use the new words in these sentences.

1. A successful television program can be built around the ________________ comments of very young children.
2. At times, the producer must ________________ some of the things said by these children because they are too candid.*
3. He had a serious ________________ about hunting for the nearly extinct* quarry.*
4. He took umbrage* when I offered a ________________ to augment* his small salary.

*to change or go along with a poor situation*

After he bought the white elephant,* he made the best of a bad bargain and let sleeping dogs lie.*
Week 42 ♦ Day 4

It Seems to Work

Despite the antipathy* toward commercials expressed by the viewers, the remarkable success of television commercials in selling products makes it manifest that the advertiser has gleaned* what the viewer wants to see and hear from his research interview. This has helped the advertiser delve deeply into what motivates* people when they go into the supermarket to purchase products. The advertising agency is never capricious and can vindicate* spending large sums of money on research. Having uncovered what the public wants, the advertiser expedites* putting the requisite words, music, and photographs of the product on film. He will thus replenish the never-ending, ubiquitous* television commercial supply in the hope that the consumer will remember some facet* of the film and buy the product.

Sample Sentences Use the new words in these sentences.

1. If we ______________ below and behind the rhetoric* and invective,* we may discover the profound* reasons for the ferment* in our land.

An Historic Date

One event that takes place so rarely that almost no one alive when it happens can remember the previous occurrence is the changing of the century number. The passing of the ① number of years brings about the end of the 20th century and the advent of the 21st. Is there anyone ② enough to reach this historic date without experiencing the excitement of this once-in-a-lifetime moment?

While we may feel that events in our lifetime happen in a ③ way, the stroke of midnight on December 31, 2000, ushered in a new century. It served as a time to reflect upon the ④ of events in our lives, both positive and negative, that the 20th century encompassed. It is obvious to all that the past 100 years have altered the world in ways no one could anticipate at the end of the 19th century. There are many who ⑤ into the past and make predictions for the new century. December 31, 2000, was a time for reflection and promise.
WEEK 43 ♦ DAY 1

IT TAKES MORE THAN MEDICINE

If one were to look at the roster of physical handicaps, one would reach the somber* conclusion that the list is a long one. Included would be stunted development of an arm or leg due to a birth anomaly.* Others would be the result of a crippling disease that has caused muscles to atrophy. The list would go on with illnesses and injuries that maim and debilitate.* Modern medicine has done much to ameliorate the physical problems. However, there are an inordinate* number of problems of the handicapped that have still to be alleviated.* People are not naturally callous,* but in some perverse* way they have the propensity* to repress* any concern with the physically handicapped. The social problems seem to be inherent* in our own attitudes.

Sample Sentences Use the new words in these sentences.

1. If you heap opprobrium* on an impious* child, it probably will not ____________ the conditions that led to the rebelliousness.
2. The coach knew he would have to add experienced players to the ____________ to compensate* for the spate* of freshmen on the team.
3. There seems to be voluminous* evidence that the mother’s smoking will ____________ the baby’s growth.
4. The prodigy* allowed his musical talent to ____________ as he redirected his career.
5. When it seemed that Reggie would ____________ his opponent, we
broke up the fight.

*to burn the midnight oil*—to study or work until very late

The radio was such an enigma* that he had *to burn the midnight oil* for several nights in order to get it working.
Week 43 • Day 2

Doing the Right Thing

The obstacles that frustrate* the physically handicapped person who is seeking employment may turn him into a cynic. Too often a prospective employer, with a rather unctuous manner, actually tends to degrade* the handicapped by proffering* employment that is really beneath them and their abilities. The employer appears to be acting in a benevolent manner, but this attitude shows no compassion,* for he really expects the person seeking the job to remain subservient. This iniquity cannot but give the handicapped a feeling that they are being discriminated against. He does not expect a sinecure,* but he has an aversion* to the prevalent* belief that he should consider himself lucky to find any employment.

Sample Sentences Use the new words in these sentences.

1. We had to wince* as we watched the newcomer try to wheedle* and ingratiatet he himself into the teacher’s favor in the most __________________ manner.

2. It is easy to become a __________________ when the same adults who inveigh* most vehemently* against the uncouth actions that they say permeate* our youth drink to satiety* and behave fatuously.*

3. We all have moments when we vacillate* between selfish and __________________ desires.

4. While his demeanor* remained imperturbable,* there was latent* anger at the ignominious* and __________________ role he had to play.

**WEEK 43 ♦ DAY 3**

**A BETTER WAY**

Why is there any question about the propriety* of hiring the physically handicapped? No one who understands their needs can condone* this attitude. The offering of employment should not be considered a largess. There should be no need to vindicate* the hiring of a handicapped person. The only criterion should be what he is capable of doing. If this is the approach, the handicapped worker will not feel he is an encumbrance* to his boss. The employer, on the other hand, will find it conducive* to good work and will not repent his having tried something new just to mollify his conscience. Even for the most mercenary employer, there should be no reticence* in eliciting* the best that is possible from the handicapped worker.

**Sample Sentences** Use the new words in these sentences.

1. He felt it would be ignominious* for him to accept any ________________ from the charlatan* whose Machiavellian* schemes had made him affluent.*

**JUST BE YOURSELF**

Socially, the handicapped person is often treated as a *pariah*. Most people hold themselves *aloof* from normal contact with those who are “different.” This social separation propagates* additional feelings of antipathy*. If “normal” individuals would socialize with the handicapped individual, they would learn in a *pragmatic* way that these are people who happen to have a physical handicap; the handicap does not make them any less human. The iniquity* of assuming that physical superiority equals moral superiority prevents all of us from direct human relationships. As long as there is a *vestige* of feeling that handicapped people are inferior, then we are all handicapped in one way or another. Under the *guise* of physical superiority we demonstrate a moral turpitude* that is harmful to all.

Whistle Blowing

There appears to be a question of how much loyalty employees owe to their employers—whether private or governmental. Many companies go out of their way to encourage employees to make suggestions that will improve the way they operate. A ①______ employer will not criticize or reprimand an employee who points out problems having to do with the way other employees are harming the business. In fact, it should be in the bosses’ interest that the person who has become known as a “whistle blower” is encouraged to alert them to a problem.

However, many such whistle blowers face harsh punishment for calling attention to illegal or unethical actions. The whistle blower soon becomes a ②______ in the workplace. Under the ③______ of some minor error, or other excuse, the informer might be demoted, transferred, or fired. This ④______ often goes unreported. As a result, the employees go back to “business as usual” without any change. They become used to whatever they may see around them and to the belief that they should not make waves. Thus, no attempt to ⑤______ the situation actually takes place.
HAVE WE MASTERED OUR ENVIRONMENT?

Natural disasters tend to *nullify* the best efforts of mankind. It is as though there are forces at work that are contemptuous* of our proud achievements. Who has not read of or seen the waters that *deluge* our towns and cities, jeopardizing* lives and culminating* in the destruction of the results of endless work in the space of a few moments? We are all vulnerable* to feelings of *futility* as we view the *carnage* caused to cattle from the sudden inundation.* Despite the laudable* advances made in *technology,* it can be seen that we cannot yet say we have mastered our environment. Disasters of this type, leaving only pathetic* vestiges* of homes and shops, are accepted as inevitable,* and all we can do is to attempt to ameliorate* the conditions that result.

Good News—And Bad

One of the latent* dangers indigenous* to our constitutional guarantee of freedom of the press has to do with the protection of the individual against the detriment* that might come from news reports involving him. There are libel laws that protect against false charges. If an individual believes his character or livelihood have been damaged by a defamatory article, he can sue. As the plaintiff he must refute* the story and show how the defendant caused him harm by printing a canard. The defendant attempts to substantiate* the truth of the article. The printing of news may besmirch* an individual’s character, but there is no way to alleviate* this problem without changes in the Constitution. This would be tantamount* to destroying the efficacy* of our coveted* right to learn the truth from the press. We all deprecate a situation in which someone suffers because of exposure in the newspapers. Only when the harm is caused by someone with a desire to malign* under the guise* of printing the news can the individual expect to win compensation* through the courts.

THE ISLAND OF WILD DOGS

The saga* of the introduction of that diminutive songbird, the canary, into the homes of the world as tame pets is an interesting one. In the sixteenth century a trading ship going to Italy stopped at an island named “Canis,” from the Latin word for wild dog, which could be found there in profuse numbers, off the coast of Africa. The dulcet song of the wild birds whetted* the interest of the captain. In impromptu cages hundreds were taken aboard to be traded. The sailors called these gray-green birds, spotted with yellow, “canaries.” As they approached the island of Elba, near Italy, a malevolent storm put the boat in jeopardy* of sinking. A member of the crew released the birds, and the intrepid* canaries instinctively flew towards land. The peasants on Elba took the wild canaries in as pets. Eventually, the birds found their way into homes throughout Europe where they were domesticated and bred for variety of song and shades of colors. The canaries prevalent* today differ greatly from the ones discovered over four hundred years ago.

Reprieve for Wolves

One of the most difficult problems to resolve has to do with the conflicting interests of environmentalists and profit-making businesses. Examples of this dilemma appear frequently. While the dispute about cutting down a forest to preserve owls has been in the news, there appeared another conflict in the state of Alaska. Hoping to increase the number of tourists who seek to hunt deer and caribou, the State of Alaska ordered the killing of some of the ① ______ number of wolves that prey on those animals.

This resulted in a ② ______ of letters and articles condemning the ③ ______ that would result from the anti-wolf policy. So, once again, the environmentalists, who maintain that the natural balance should not be interfered with, ran up against the Alaskan tourist industry, which wants to attract hunters who will increase the state’s revenue. After much publicity about the wolf hunt and articles that tended to ④ ______ this policy, Alaska decided to ⑤ ______ the proposed action.

Henry VIII and British History

Students in the United States should consider themselves lucky when it comes to studying the country’s history. The United States has been a nation for approximately 225 years. We would be ①______ if we had to learn as much history as students in Great Britain, for their history goes back some 1,000 years! In that time England has had many interesting and unusual rulers. One who has fascinated us is Henry VIII. Ruling some 450 years ago, he became well known because of his many marriages and his ②______ for doing away with some wives who displeased him.

In physical appearance he was unattractive—he was large and ②______ . When his first wife could not bear him a son who would be heir to the throne, he divorced her. This caused a break with the Pope who refused to recognize the divorce. Henry VIII sent an ③______ to the Pope and renounced Catholicism. He then married Anne Boleyn but decided to ④______ her after quickly tiring of her. His third wife died in childbirth, and he divorced his fourth. His fifth, Katherine Howard, was also beheaded. Only his sixth wife was able to live on after Henry’s death in 1547. From this brief history of only one English ruler, it is easy to imagine how much an English history student must learn in order to prepare for an exam. In Henry VIII’s case, one would have to get a “head start.”
A MIGHTY EMPIRE

One of the anomalies* of our approach to history is the propensity* to study the venerable* empires of Europe, but we do not feel it incumbent* upon us to ascertain anything about the civilizations in our own hemisphere. We deprecate* the history of this part of the world as though progress lay dormant* and that other peoples were irrelevant* until the settlers of North America arrived at Plymouth Rock. In South America, from 2000 B.C. until their empire reached its acme* at the beginning of the 16th century, lived the Incas. The site* of the capital city of the Inca empire, Cusco, lay at a height of 11,000 feet. This civilization is reputed* to have burgeoned* until it covered more than 2,500 miles of the western part of the continent. Its population fluctuated* between 4 and 7 million. This empire had a highly efficacious* political and social system. Its potentate* ruled with absolute* power. As the empire conquered new lands, it would disseminate* its language, religion, and social customs.

A BATTLE FOR POWER

The Inca emperor derived his prodigious* power and authority from the gods. The paramount* god was the sun god. It was from him the ruler passed on his prerogative to rule to his most astute* son. This nepotism had worked with great efficacy* for centuries. The land holdings were immense;* there were rich farmlands and llamas and alpacas for wool. Precious metals were plentiful: silver, copper, bronze, and the most sacred of all, gold. This metal resembled the sun god whom they extolled.* There was no dearth of idols and ornaments hammered from this gleaming metal. There was always more gold coming from the mines to replenish* the supply. At the acme* of his power, the Inca ruler died without naming the requisite* successor. In 1528 two sons began an internecine struggle for control. For the next 4 years the empire sank into the lassitude* caused by civil war.

*to rub a person the wrong way*—to do something that irritates or annoys

The quickest way to *rub a person the wrong way* is to give him the cold shoulder.*
A PERFIDIOUS* CONQUEROR

The feuding between the rival sons reached its pinnacle* in 1532; at that moment Francisco Pizarro came onto the scene. A native of Spain, he was sojourning* in Panama when he heard of the riches to be found in that far off land. Overwhelmed with cupidity,* but still a tyro when it came to wrestling* power and wealth from hapless* people, he joined with an inveterate* adventurer. They gathered a small band of mercenaries.* The first two attempts failed, and Pizarro returned to Spain to request authority and money in order to conquer the West Coast of South America. Whether by sophistry or cajolery,* he was given the requisite* aid. With a force of 180 men, the dregs* of society, he invaded Inca territory. He reached the city where the current ruler, Atahualpa, was holding court. The Incas welcomed Pizarro who, in a factitious display of friendship, heaped encomiums upon Atahualpa. Unknown to the Incas, Pizarro had brought guns that were still beyond the technology* of these people. The obloquy of his next act, ambushing the Incas and taking Atahualpa prisoner, will live in the history books that are replete* with tales of conquest.

THE END OF AN EMPIRE

The Machiavellian* Pizarro held the captured Atahualpa for ransom. He was adamant* about receiving a room filled with gold to the height of a man’s shoulder. This was taken as a hyperbole at first, but Pizarro knew the gullible* Incas would be munificent when it came to rescuing their sacred ruler. They did not procrastinate,* and a frenetic* collection of gold took place. Pizarro, to whom prevarication* was natural in dealing with the Incas, had no qualms* about executing their ruler as soon as he had the gold. The Inca empire was moribund,*, but the charisma* that surrounded Atahualpa was such that, after his death, the Incas fought on tenaciously* in his name for several years. Eventually, superior weapons quelled* all opposition. A policy of genocide* was adopted by the Spanish conquerors, and almost two million of these proud people died in the carnage* that followed. The saga* of an ancient civilization thus came to an end.

PANORAMA OF WORDS

Originally introduced in the preceding edition, this section, in which you will find the 1100 words in sources as strikingly disparate as the Toronto Globe & Mail, Truman Capote, William Shakespeare, Agatha Christie, Thomas Mann, TIME, Machiavelli, and Tom Clancy, validates the contention that this selected group of vocabulary words has been widely used by educated writers.

Most issues of your local newspaper, for example, will contain at least a dozen of the words you have encountered in these pages. But they also appear in advertisements, obituary notices, weather forecasts, cartoons, and brochures of all sorts. Wherever else you come in contact with adult vocabulary—radio and TV shows, news broadcasts, college entrance exams, movie scripts, books—you are likely to find more than a few of the words in 1100 Words You Need to Know.

Now, for a useful summary of what you have learned in the forty-six lessons, read through the “Panorama of Words,” noting the varied sources of their usage. Be aware that some of the following quotations have been adapted or edited for brevity.

**BONUS WEEK A ▶ DAY 1**

**TITANIC MYSTERY**

On April 14, 1912, an incident took place that became a front page story in newspapers all over the world. It is a tale that has continued to capture the attention of movie and theatre goers, of opera and television audiences, of novelists and playwrights—it’s the story of the allegedly impregnable Titanic, the unsinkable majestic ocean liner that tumbled to the bottom of the icy Atlantic waters with 1600 passengers still aboard.

How could such a toxic tragedy have occurred? Could it have been avoided? How could the naval patriarch, Captain Edward Smith, no neophyte he, have allowed the disaster to happen? What were the extenuating circumstances that led to the death of that glorious White Star queen?

In September 1985, the hulk of the Titanic was found on the ocean’s floor, providing many answers to the questions that seamen and landlubbers had wrestled with over the years.

WHAT WENT WRONG?

Investigators found that a series of mistakes led to the sinking of the *Titanic*. A wireless message had come in from a French liner, warning of ice ahead, but that was a thousand miles away, and so, no need to worry. On April 13, the vessel *Rappahannock* also warned the *Titanic* of dangerous ice ahead. On the following day, there came a spate* of other warnings from a Cunard ship, a Dutch liner, and the White Star *Baltic*—all telling of icebergs about 250 miles from the *Titanic*’s current position. Next came the German *Amerika*, echoing the same forebodings, followed by the *California*, cautioning the *Titanic* about the field ice. Finally, the *Mesaba* called attention to an enormous belt of ice stretching directly across the *Titanic*’s path. All the messages emanating from sister ships should have had a profound* effect on Smith and company.

No one miscreant could be fingered, but a host of crew members were certainly blameworthy. Why didn’t Captain Smith’s officers react to those messages? Notations were indeed made on slips of paper but largely ignored and forgotten. There was no standard protocol for the handling of such messages; if there had been, Captain Smith would certainly have taken a circuitous route so as to avoid the dangerous icebergs.

DEATH KNELL FOR THE TITANIC
And then it happened. White in its innocence, a monstrous iceberg smashed into the luxury liner, ripping an ugly gash of 250 feet along the starboard and causing a fatal wound. Within seconds, thousands of cubic feet of water had penetrated the shattered hull. One after another, dominolike, the watertight compartments and bulkhead were flooded. The unthinkable had happened despite the absolute guarantees of the shipbuilders, Harland & Woolf.

There followed a macabre scene as the ship’s band, clad in their tuxedos, continued to play show tunes while hordes of terrified passengers, many in nightclothes, rushed toward the lifeboats. The crew called out, “Women and children first,” but their lack of an orderly plan for loading would have profound* ramifications. In fact, some boats that could hold 30 were sent into the Atlantic with only a handful of people—generally first-class passengers.

As panic began to take hold, the realization that there weren’t enough lifeboats exacerbated* the situation, bringing out the worst in a rapacious few. Several insurgent males ignored the crew and jumped into descending lifeboats. It was an act of shame they would have to live with for the rest of their lives.

BONUS WEEK A ♦ DAY 4

THE LAWYERS’ TURN
As one might have expected, manifold* law suits against the White Star Line began to crop up within weeks of the sinking and rescue. The glut of billionaires on board (Astors, Wideners, Guggenheims, Strausses, et al.) did not file any claims, but other cases went all the way to the Supreme Court and kept lawyers and judges busy for the next four years. The average claim had been for a modest $1500, and the average award, paid by the White Star Line, was a risible $1000. White Star’s top notch legal staff was accused of using dilatory tactics, tiring the claimants until they agreed to settle for a mere pittance*. Their lawyers called many claims specious and rejected them out of hand.

The denouement of the story is rather sad. American and British maritime law had long given special protection to ship owners on the grounds that their business was such a risky one. And so there was a limit to the amount of money that White Star could be assessed. In the end, they paid only 4% of the $16 million originally demanded by the survivors and were happy to close the books on the ocean disaster. We can imagine that if a similar tragedy were to take place today, the settlements would be in the hundreds of millions.

AN UNUSUAL PERK

A study from the Department of Health and Mental Hygiene declared that one in eight adults in our major cities has diabetes, a disease. Many, however, are not aware that they have it or how it can be. There is a of evidence revealing that the high blood sugar that affects diabetics is more characteristic of Asian Americans, African-Americans, and Hispanics than of the white population.

Unfortunately, many of the victims of diabetes do not take immediate steps to deal with the disease. New York City’s health commissioner has warned of the of a failure to control the high blood sugar: blindness, amputations, and heart disease. In fact, diabetes is the nation’s fastest growing major disease.
GOOD NEWS—AND BAD

On Palm Sunday, April 9, 1865, General Ulysses S. Grant sent a terse* dispatch to Secretary of War Edwin Stanton. It contained the long-awaited sentence that the Confederate General Robert E. Lee had surrendered. The dolorous Civil War that had crippled the young nation was finally over.

President Lincoln was only 56 at the time, but he looked twenty years older. The burden of being a wartime president had so enervated Lincoln that Surgeon General Barnes feared an imminent* nervous breakdown. When Grant’s news reached Lincoln, he went to the front windows of the White House and waved to the crowd below. He proceeded to make a brief speech about the problems of Reconstruction and advocated* the granting of suffrage to Negro soldiers.

Among the listeners was a Southern patriot, the popular actor John Wilkes Booth, almost as famous in the theater as his father, Junius. “That’s the last speech he will ever make,” said Booth to a fellow member of his cabal of conspirators. Booth’s odious plan was to assassinate Lincoln whom he hated passionately, while an associate, George Atzerodt, would do the same to Vice-President Andrew Johnson.

THE DREAMS OF LINCOLN AND BOOTH

Lincoln’s family and friends remembered that the President had a *prescient* dream in March, several weeks before the fatal day, and provided them with a *verbatim* account. He told of entering the East Room in the White House where a throng of people were gathered around an open coffin. In his *reverie*, Lincoln asked a soldier, “Who is dead in the White House?” “The President,” was the reply. “He was killed by an assassin.”

Mrs. Lincoln said, “I’m glad I don’t believe in dreams or I should be in terror from this time forth.” Lincoln’s was the calming voice, “Let’s try to forget it. I think the Lord in His own good time and way will work this out all right.”

Of course, all who loved Abe Lincoln would have been deeply agitated if they had known what John Wilkes Booth was planning. As a Southern secessionist, he despised the President. As a *thespian*, he romanticized the action that he could take to rid the nation of a cruel warmonger. Although he had not taken an active part in the Civil War, he was convinced that he could contribute to the Confederate cause by kidnapping the bearded *despot*. It wasn’t exactly clear in his mind whether he would “capture” Lincoln and take him to Richmond where he could be exchanged for Confederate prisoners of war—or whether he would just put a bullet in the President’s head.

THE ASSASSINS MAKE READY

The pathological yet articulate Booth had rounded up several co-conspirators and shared his delusions of grandeur with them. He had produced a polemic that convinced his crew that it would be a patriotic thing to capture the President. One of them was assigned to shut off the master gas valve at Ford’s Theatre when Mr. and Mrs. Lincoln were seated there at the play. With all the lights out, Booth would bind and gag the President. Two men would lower Lincoln onto the stage, and then carry him out the rear door to a covered wagon waiting in the alley. They would head for Port Tobacco and then ferry across the Potomac to their ultimate* destination, Richmond, Virginia.

Several dry runs* had not worked out for the cabalists* who were about to reach an impasse when Booth learned that Lincoln would be celebrating General Grant’s victories with a party at Ford’s Theater on the night of April 14. He promised the small group that destiny was at hand; their bold act, he said, would make their names famous forever in the annals of U.S. history.

In the late afternoon of April 14, Booth watched a rehearsal of the play that would be performed that evening. He had reviewed his action plan and the escape route, and he believed it to be foolproof. He mouthed the phrase he would use after killing Lincoln, “Sic Semper Tyrannis” (“Thus always to tyrants”).

The curtain was about to go up on one of the darkest days in the country’s history.

“NOW HE BELONGS TO THE AGES”

At 8:25 the Lincolns arrived at the theater. When they entered Booths 7 & 8, as regimen dictated, the band played “Hail to the Chief.” The 1675 members of the audience stood to honor the great man, and then the play commenced. It is reported that Booth said to a drunk who had denigrated his acting skill, “When I leave the stage, I will be the most famous man in America.”

At about 10 P.M., with extreme guile, Booth had managed to be behind Box 7 in the darkness of the hallway. He saw the silhouette of a head above the horsehair rocker. Derringer in his hand, he aimed it between the President’s left ear and his spine. The shot was drowned out by laughter on the stage. Shouting “Revenge for the South,” Booth climbed over the ledge of the box and jumped onto the stage, breaking his leg in the process.

In pain, Booth limped out the stage door where his horse was waiting and made his getaway. Days later, however, he was cornered in a Virginia barn and shot. Three of the cabal* members were arrested and hanged.

At the theater, a 23-year-old doctor attended to the wounded President. He found that the lead shot had lodged in Lincoln’s brain, a bad sign. Several soldiers carried Mr. Lincoln across the street to a private house. His family physician came and so did the Surgeon General. The President struggled throughout the long night, but it was apparent that a mortal wound had been inflicted, and he could not be saved.

At 7:22 A.M. it was over; two silver coins were placed on the assassinated President’s eyes. Then Secretary Stanton uttered the famous words, “Now he belongs to the ages.”

Perks Are In

Do you know what a “perk” is? Simply put, it’s an extra reward, a special benefit given to sweeten the job for an employee. Now an ①______ staffer at Serus, a software maker in California’s Silicon Valley, has skillfully described an incredible perk given to him and his fellow workers—a thrill-packed parachute plunge as they jumped from a plane 14,000 feet above the ground.

“Our employees work hard and can become ②______ ,” said a Serus executive, “and we want to invigorate them with sky dives, as well as cruises, beauty treatments at spas, birthday parties, maid services, and other creative perks that our ③______ might conjure up.”

Of course, company executives are deeply interested in keeping productive staff members from quitting and going to work for competitors. And so, the host of perks they offer reflect the ④______ behind their generosity. “Cash bonuses won’t have the same effect,” a CEO said. In a ⑤______ remark he declared, “It’s like a parent who throws money at his child when what the youngster really wants is attention.”
